Kelly Sue DeConnick : Bitch Planet, Vol. 1: Extraordinary Machine before purchasing it in order to gage whether or not it would be worth my time, and all praised Bitch Planet, Vol. 1: Extraordinary Machine:

0 of 0 people found the following review helpful. As reviewed on Inside254 podcast: I read this and teach this text. Worth every penny!By C. ClemensAs reviewed on Inside254 podcast: I am not a comic book lover. I didnt grow up poring over them. I had a few Fantastic Fours and Wonder Womans. I have always preferred realistic fiction. So my

deep love for the Bitch Planet comic series sometimes catches even me by surprise. Kelly Sue DeConnicks ongoing comic series tells the story of women relegated to another colony for acts such as being too big, too loud, too sexy, not sexy enough basically any infraction that would be considered non-compliant. Even if you don't love comics, you can read this text as a manual for resistance against dominating ideas based in patriarchal attitudes about women. There are two collected editions, and they are great start. However, I recommend you get the single editions so you can enjoy all the backmatter that makes the series an integral part of feminist community and conversation. I am not a comic book lover. 2 of 2 people found the following review helpful. This knocked my socks off

By morehumanthanhuman This comic is spirited, sharply written, pays just the right amount of homage to classic exploitation movies, politically fierce with an inclusive cast of characters, and sets the foundation for what appears will be an awesome story. Like many intro books, we get a lot thrown at us in the first installment, but I am willing to have faith that the characters and story will continue to develop. I can't wait to continue the story.

98 of 106 people found the following review helpful. Superlative work. I rarely use that word.

By bubbe barbara My daughters love Deconnick's work and handed me the first 4 comics to read recently. I was extremely hesitant, but since it meant so much to them, thought I would give it a try. My grandma was born in the 1890s, my mom in 1918. I grew up thru the 60s and 70s and thought I'd seen and heard all there was to know about feminism and women's rights. I didn't. I learned some things from this work. I think the incredible power of these mature comics is intense and wonderful. I would want any young woman growing up today to read them, grapple with the ideas, and hopefully grow into someone who makes the world a better place. I'm hooked. Can't wait to see what comes next. NC Bubbe

...one of the most unique and subversive artifacts of pop culture in recent memory. - Salon.com "Seldom do comics burst onto the scene and shatter our worldview by being entirely poignant, raw, and captivating - but then, most comics aren't Bitch Planet." - Entertainment Weekly

Eisner Award-nominated writer Kelly Sue DeConnick (Pretty Deadly, Captain Marvel) and Valentine De Landro (X-Factor) team up to bring you the premiere volume of Bitch Planet, a deliciously vicious riff on women-in-prison sci-fi exploitation. In a future just a few years down the road in the wrong direction, a woman's failure to comply with her patriarchal overlords will result in exile to the meanest penal planet in the galaxy. When the newest crop of fresh femmes arrive, can they work together to stay alive or will hidden agendas, crooked guards, and the deadliest sport on (or off!) Earth take them to their maker?
