Rick Remender : Black Science Volume 4: Godworld before purchasing it in order to gage whether or not it would be worth my time, and all praised Black Science Volume 4: Godworld:

2 of 2 people found the following review helpful. I liked this. It was nice to take a break ...By Joshua JohnsonI liked this. It was nice to take a break from all the action and step into the I unconscious mind of Grant.I really enjoyed Rebbeca. I was delightfully surprised to see her. we get flashbacks and traumatic memories of Grant and learn why he is who he is.It gets a little mushy but I think it's still solid. also Kadirs sword makes a special guest appearance.0 of 0

By Jordan This series is getting better and better. The first one totally failed to hook me, but I pushed through because I felt like it had more to offer and I'm glad I did. The fourth installment took a break from some of the usual stuff and helped the reader understand Grant a little more which was much needed in my opinion. Grant was a tough character to relate to. His issues with commitment, he's hot headed and selfish, let's not talk about his actions at the end of the last book. Seeing these sides of him you don't expect allows you to understand some of the reasons why he is the way he is and that he recognizes his faults. This was definitely a unique volume, and I'm excited for more.
0 of 0 people found the following review helpful. An other excellent book in the series.
By Craig A great series that always keeps me interested. Both the writing and the art are consistent with past volumes. If you've read the previous ones, keep going. If not, go back and read volumes one through three first.

Following the catastrophic final jump of the Pillar, the last Dimensionaut is stranded in the furthest reaches of space, adrift on the wreckage of his former self. Before he can reclaim his mantle as protector of the Eververse, he must first overcome the demons that lurk within his own soul.
