Margaret Stohl : Black Widow Red Vengeance (A Black Widow Novel) (A Marvel YA Novel) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Black Widow Red Vengeance (A Black Widow Novel) (A Marvel YA Novel):

1 of 1 people found the following review helpful. Great Sequel By Jessica I know a lot of people don't like this series,

but I enjoy it. In comparison to the first book, this one was much better. The plot was relatively simple which I liked. We got a lot more Natasha which is always nice. Plus we also got Captain Marvel! Overall, I enjoyed it and thought it was a lot of fun. I hope the series continues because the end sets up a sequel. 1 of 1 people found the following review helpful. What's next for the Widows? By Jessi Really glad I was able to hunker down and finish reading this book. I was really sad that it had been left half read for so freaking long. This one was slow and a little more angsty than the last one so I kinda get why it took me so long. I wonder what Ava will end up doing on her own and how the rest of the pieces will fall. Nice to know they're bringing in some Inhumans story. 0 of 0 people found the following review helpful. Fun fast read By Clint Pahman Really enjoyed learning more about Black Widow this book was a real page turner never really slow down was easy-to-read the only small complaint I have is that we kept bringing up Captain America Iron Man and Captain Marvel the only one to actually show up in the book was Captain Marvel. I expected a little more help from the other heroes. Other than that it was a great book.

BLACK WIDOW: RED VENGEANCE is the action-packed sequel to the instant New York Times best-seller, **BLACK WIDOW: FOREVER RED**, penned by #1 New York Times best-selling author Margaret Stohl. This time, Stohl takes readers inside the minds of Marvel's most cunning and dangerous spies—Black Widow and Red Widow—delving deeper into their powers and will reveal more than ever before about the infamous assassin and her fledgling hero-in-training.

From School Library Journal Gr 8 Up Natasha Romanoff and Ava Orlova (aka Black Widow and Red Widow, respectively) may have defeated Ivan Somodorov in *Black Widow: Forever Red*, but Russia's Red Room is still thriving, threatening the Widows and the world. Natasha and Ava, who is now enrolled in S.H.I.E.L.D.'s training program, are grieving the death of Alex, Natasha's long-lost brother and Ava's boyfriend. When S.H.I.E.L.D.'s network is hacked and a new villain appears with a dangerous mind-control drug, the teens must once again save the world from the Red Room. This volume builds on the complex relationship between Natasha and Ava, who are not only connected by their love for Alex and their Red Room past but also by their quantum entanglement link. Despite their similarities, Ava, who has the ability to express emotion, contrasts with Natasha, who has been taught and forced to keep her emotions in check. Alex's presence in Ava's mind grows as the story progresses, though readers will hope that the reason for this plot point will be explained in the next series entry. Tony Stark continues to provide invaluable help to the Widows and is joined by Carol Danvers (aka Captain Marvel), who will be starring in her own upcoming young adult novel. Action-packed, with international travel, political intrigue, and strong female protagonists, this title will not disappoint fans and will leave readers eager for the next installment. **VERDICT** Purchase where the first novel and superhero prequels are popular. Marissa Lieberman, East Orange Public Library, NJ "Action-packed, with international travel, political intrigue, and strong female protagonists, this title will not disappoint fans and will leave readers eager for the next installment." School Library Journal About the Author Margaret Stohl is the #1 New York Times best-selling co-author of the *Beautiful Creatures* series. Her solo books include *Icons*, *Idols*, and *Black Widow: Forever Red*. Before writing her first novel, Stohl was a veteran of the video-game industry, working with Activision (now Activision Blizzard) and Westwood Studios (now Electronic Arts). Margaret later became a cofounder of 7 Studios with her husband, Lewis Peterson. She has previously been nominated for Most Innovative Game Design at the Game Developers Conference. She lives in Santa Monica, California with her husband and daughters.
