Zap is my favorite character! he reminds of "Spike Spiegel" from Cowboy Bebop with a lil flare of Vash The Stampede lol1 of 1 people found the following review helpful. good hold overBy learneddresThis series is of course Nightow's work after Trigun in Japan I read this series is a mini and a wrap. I think this manga has a real upside beyond Nightow's character

design which is what shines through in this manga. That and an ability to really sell an action scene all the at times a confusing illustration and sequence it still adds to the style. When you are reading and looking through this u know your looking at a different kind of manga. The supernatural aspects brings out this artist creativity. As far as story and plot interesting premise but no pay off and uninteresting lead character but who knows if this like Trigun who knows what the future holds. What would seem to be the side characters are top notch. Good read I think is a definite buy it is always exciting to get in on the ground up of a manga series and catching an artist like Nightows latest work with quality production behind it let's me say easy recommend in a crowded market place.

In the interdimensional maelstrom of New Jerusalem what New York used to be before it went to hell, literally! the agents of Libra quietly keep the lid on the paranormal pressure cooker. When agent Klaus Reinhertz tracks the source of the super-drug Angel Scale, he is drawn into a deadly game with a mob boss from Beyond: win, and have your dreams come true; lose and have your mind absorbed by the alien godfather!
