Linda Sejic : Blood Stain Volume 1 (Bloodstain Tp) before purchasing it in order to gage whether or not it would be worth my time, and all praised Blood Stain Volume 1 (Bloodstain Tp):

3 of 3 people found the following review helpful. Short on plot, but so much fun.By Christopher DemarestWell, this is certainly not what I expected. I was kinda hoping for something more piles-of-bodies-ey. The plot doesn't actually progress much and this feels like the equivalent of an issue 1 rather than a volume 1, as far as plot progression. The end feels exactly like the end of a first issue.But all that's okay, because what we DO get is some fantastic humor and

Elly's inner world, which is an awesome place to be. Her thoughts are like these Family Guy-style cut-aways. Except these are funny. This book is friggin hilarious. It sucks that I feel like I got cut-off when the story was seemingly just starting. But I had a blast throughout the whole thing. I will probably keep going with this. It really procrastinates moving the plot, but it's a really good time while it's doing that. 2 of 2 people found the following review helpful. I love this comic. By VCSI I love this comic. I follow the artist and read this comic on Deviant Art and I love it. Once I heard this comic was getting a printed release I was so excited I actually pre-ordered it back in October of 2015. I love the story, the art, and everything about it, I love the facial expressions as well, a lot of them make me laugh especially when it gets further into the story. The characters all have a very brilliant life of their own and the characters are relatable. I can't wait for the next volume to come out, it is so nice to actually be able to sit down and read this story and see the awesome art work by Linda Sejic without having to turn the computer on and stare at a screen and tire out my poor eyes. I'll always keep reading it as it comes out on DA but I'm definitely going to continue getting the printed versions of it to. 0 of 0 people found the following review helpful. Beautiful artwork and a cute. By misha Beautiful artwork and a cute, weird story that really appeals to me. It is a slice of life sort of comic, but it manages to leave you hanging at the end of this volume. It's a quick read, but Linda Sejic is generous with extra sketches and scrapped Blood Stain panels. I found the story of how Blood Stain came to be, very sweet and inspiring. There's always something really special about owning a truly lovely comic or artbook in physical form, plus what better way to support artists than buying the wonderful fruits of their labor and tears.

Mad science at its finest. Chemistry major, Elliot Torres has been unable to keep a steady job and eventually accepts a job by a rumored mad scientist Dr. Vlad Stein. Humorous hijinks ensue as their collaboration becomes epic.
