A Forced and Unfortunate Digression By Customer The stories in this volume create the appearance that the title was forced by editorial to go off

on a tangent by Booster's involvement in the Time Masters: Vanishing Point mini-series and the search for Bruce Wayne and by his appearance in the Justice League: Generation Lost limited-series. The events in this collection are shoe-horned in around the other two series. I give DC credit for recognizing the time constraints of having the character appearing in three places at once, and having this take place in the past. Unfortunately that past is the era of what's come to be known as "The Giffen League" and even though writers Keith Giffen and J.M. DeMatteis were reunited with the Blue and Gold team of Blue Beetle and Booster Gold, they weren't able to recreate the magic of that era. Perhaps it wasn't as magical as I remembered. 20 years ago it was fresh and new and fun, coming out of a "grim and gritty" period. 20 years ago my expectations may have been different. It's also possible that because I've "been there and done that" there was no way this revisiting could surprise and delight me like the original run did. I had much the same reaction to the mini-series "Formerly Known As the Justice League." For completists and fans of the character, there's enough to like to recommend this volume. It's nice to see the contrast between a more mature Booster Gold and the silly tone of the older series. It does advance a few plot threads a bit. But for someone who wants to check out the Blue and Gold team, I'd recommend the original works from the 80's and 90's. And for someone who's curious about what Booster Gold has been up to lately, and his work as a time traveler with Rip Hunter, I'd pick up any of the previous 5 volumes, and the much better Justice League: Generation Lost.

When a mysterious figure from Boosters past resurfaces, our heros life is turned upside down and inside out, and only a trip through the timestream can set things straight. The shocking events of JUSTICE LEAGUE: GENERATION LOST leave Booster Gold bloody and beaten, and the only way for him to put right what went wrong and save the people he loves is to travel back into the past. But what happens when Booster comes face-to-face with himself and Justice League International?
