The art in this book is awesome and really fun to look at. Goes along the same idea as "Where' Waldo?". Its really hard to find cat bug stuff for younger kids. There's plenty of adult apparel and wallets and such but this book saved the day when her birthday came around! 0 of 0 people found the following review helpful. From School Library JournalGr 24This search-and-find book features Catbug, one of the characters from Cartoon Hangover's YouTube series, Bravest Warriors. Other than a brief cartoon introduction, which gives the reason for the character's disappearance, the book is made up completely of Where's-Waldotype scenes in which Catbug must be found. The artwork is based on the original cartoon by Pendleton Ward, but each spread has been completed by a different talented artist in his/her own style. The scenes are brilliantly colored and action-packed; some have a little too much action for very young readers. This volume, while visually appealing and well executed, will only be useful in libraries where Bravest Warriors is very popular.Sarah Reid, Broome County Public Library, Binghamton, NY
