A few nudes if you're into that. Lots of laughs and shots at Comedy Central. 1 of 1 people found the following review helpful. It's Definitely Brickleberry By E. Pichon If you love the outrageous antics of the Brickleberry gang on their animated tv show, then you'll really love

this graphic novel collection of the 4 comic issues. Lots of over the top jokes, raw content, and genuinely crazy characters we all know and love. Highly recommended for any fan of Brickleberry! 0 of 0 people found the following review helpful. Seriously messed up. By Holly Gordon Why Brickleberry was cancelled I will never know. Offensive, irreverent, and all the things that make life fun. Funny as hell.

Brickleberry's back, and now in comics! Written by show creators Waco O'Guin and Roger Black, the epic "ArMOOgeddon" storyline picks up right where television's most outrageous animated sitcom left off! In the distant future, Steve Williams -- the only Brickleberry park ranger who managed to escape death at the hands of the Alien Cow Invasion -- has joined forces with a small group of human rebels in an underground hidden base. With the help of Dr. Kuzniak, Future Steve must travel back in time to the year 2015 and kill head ranger Woody Johnson, whose actions led to the Invasion and the destruction of all humanity. But Denzel Jackson has other plans for Steve's time travel technology, redneck Bobby Possumcods willingly submits to Alien Cow domination, and Connie's advances toward Ethel get... weird.
