I initially bought volume one, because I have a habit of buying manga with really good artwork, and each time, they are always good one's that I find. I Love the look and feel of the artwork in this manga, its so fluid. If you want something visually appealing, I would suggest this series. The story is not bad either. I dont buy manga that much, but the few series I do have, either are good plot wise and story wise, or have good artwork. I draw a lot, so the pretty one's are more of a reference for me, on different

styles and such. This series seemed different to me style wise. So I added it to my collection. I do like the story though, its simple, and not hard to figure out or boring. This volume in particular was a bit slow, and the only change was the water god sends soa back to her world, where from then on bad times befall her, but all evens out in the end.I recommend this to anyone who is looking for something different.0 of 0 people found the following review helpful. Breathtaking Art!By Leslie S.I read a lot of manga and watch anime. Why? Because as a life long lover of cartoons/comics (I'm almost 60), they fill the need for great stories and beautiful art. Unlike a lot of American style toons, which I find the art childish if not hideous and the stories idiotic, they are beautifully drawn and the stories are great. This is the only series I am buying right now because the art is so exquisite. Every page is beautifully done. The story is fun. I lived in Korea for a year and I loved the country. Yes this is more of a chick manga, but if you love a good love story filled with intrigue and great art, this is for you.0 of 0 people found the following review helpful. Mi-Kyung Yun takes us on another journey to Habaek's kingdom, where the cursed Water God tries to hide his dark secrets from his new bride! Humor, drama, and a bit of horror combine, as human bride Soah tries to uncover the truth behind her strange husband's predicament and his previous wife's early, brutal demise. While Huye distracts her with flirtations and the dreadful goddess Murah becomes increasingly jealous, strong-willed Soah is determined to find out why her powerful, moody husband is cursed to live in the form of a little boy during the day, returning to his true, adult body at night. Soah's inner strength and determination saved her village from drought and famine in previous volumes - now she must pit her guts and guile against the unpredictable elemental gods in order to find happiness in the new world she's trapped in.
