Mark Crilley : Brody's Ghost Volume 1 before purchasing it in order to gage whether or not it would be worth my time, and all praised Brody's Ghost Volume 1:

27 of 27 people found the following review helpful. Mark Crilley returns with Brody's Ghost! By TuxedoWerewolfI just got my copy of Brody's Ghost in the mail today, and the first thing I noticed that the book overall was thinner than Crilley's other manga Miki Falls. But that doesn't change my opinion of the manga book. Brody's Ghost is amazing! I don't know where to begin with the detail in each panel; every detail is just astounding! Every location, every person, everything is just packed with amazing detail! The realistic manga style that is used in the book is crazy good; it slightly resembles the Death Note manga! The story is very good so far; Brody, a poor man who lives in his run down

apartment, struggles to get through life, until one day he meets Talia, a deceased girl in the form of a ghostly figure, who tells Brody of his psychic powers that he was not aware that he had. I cannot go any further than that; I do not want to spoil it. Mark Crilley has done an extremely great job creating Brody's Ghost. It truly is an amazing book, although it's the only one available at the time. I do not know when the next book will be out, but I know I will be pre-ordering it ASAP! If you are a fan of Mark Crilley's work Akiko or Miki Falls, then Brody's Ghost is something that you will LOVE! Buy it now! 1 of 1 people found the following review helpful. I don't know why you're reading reviews when you could be reading this comic. You need better time management. By Kimberly Larson Okay, I have to admit, although I've prided myself in the past for being able to predict the twists of a plot well before the big revealing, this plot did an amazing job at surprising me! (I've read them all) I seriously did not see a single twist in the plot before it was uncovered! I think it's because Mark gets the reader focused on the main character and the situation at hand, and so attention is drawn away from other "hints" and subplots until the time is right. Artwork is fantastic. He's especially good at creating a setting, which is uncommon in manga in my opinion. The city reminds me of Milan, and you'll know what I mean if you've ever been to Milan (the not Duomo part of Milan). Characters are genuine and complicated, not generic at all. The comedy is indirect, but really funny! Not exactly side-splitting, but enough to add some humor into a great mystery. 0 of 0 people found the following review helpful. Another great book by Mark Crilley, but the printer is what cost this a point. Read on and see the attached comparison photos. By Ryan P Bell absolutely love Mark Crilley and the work he produces. If you have not heard of this man you should watch his realism challenges that he does on Youtube. <https://www.youtube.com/watch?v=LGswyY7Uz7w> If that did not blow your mind... well then I am shocked. I digress though Mark Crilley is a passionate and very down to earth artist. He crafted a wonderful story with this book. The visuals and the level of detail into the backgrounds is just amazing and breathtaking. The characters are relatable and are characters you actually will care to read about. The premise is fresh and the style works for the book. I am only docking one star because the printers themselves... Dark Horse, ruined the double page splash when one prominent character is introduced. Her torso and waist are stuck within the spine of the book and cut off in the bleed of the page which is a shame for such a wonderfully planned establishing shot. Other than that the book is great. No step reading this and go read that.

Brody hoped it was just a hallucination. But no, the teenaged ghostly girl who'd come face to face with him in the middle of a busy city street was all too real. And now she was back, telling him she needed his help in hunting down a dangerous killer, and that he must undergo training from the spirit of a centuries-old samurai to unlock his hidden supernatural powers. Thirteen-time Eisner nominee Mark Crilley joins Dark Horse to launch his most original and action-packed saga to date in Brody's Ghost, the first in a six-volume limited series.

From Booklist Brody, a broken-down street musician, finds his world changed forever when he meets Talia, a teenage ghost who tells him that he will help her complete the task that allows her entrance into heaven. Though the first part of Crilley's six-part story is short, he packs in a lot of details, especially in his amazingly realistic, manga-influenced art. The setting an unidentified future city partially in ruins is a masterpiece of drawing, and Brody and the other characters are equally well crafted (readers are shown that process through character sketches in the back of the book). The story is more than a match for the art: humor, action, and mystery butt up against the reality of Brody's sad life, giving him the opportunity to change who he is. Rather than starting with a hero, Crilley builds one from the ground up, encouraging readers to join him in the journey. The surprise ending wraps up this introductory volume and leaves readers eager for round two. Grades 7-12. --Snow Wildsmith
