Four StarsBy Zoe's DadIt's my favorite Valerian and Laureline story. It feels a little old, but still fun to read.

On Earth and in space, in the past and the future, greed and the thirst for power place Mankind in immediate danger.The two Galaxy agents investigation into the elemental forces appearing on Earth continues. While Laureline, dogged and efficient, follows a promising lead somewhere in outer space, Valerian is struggling to unravel the

mysterious events plaguing our 20th century. Demonstrations of fantastic phenomena follow in quick succession, pushing poor Valerian to his limits. And matters will have to be settled simultaneously in New York and on an asteroid on the edge of the galaxy to save our world...
