Kel McDonald : Buffy: The High School Years-Glutton for Punishment before purchasing it in order to gage whether or not it would be worth my time, and all praised Buffy: The High School Years-Glutton for Punishment:

3 of 3 people found the following review helpful. Skip this one By miluma Huge Buffy fan, and up to date on Buffy comics and Angel and Faith series. It is fun to revisit Buffy before all the sturm und drang of her more adult adventures and I did like the 1st one in the series. The graphics are fine in anime style, but the storyline is extremely weak and at reading level of a 2nd grader. Very basic, simple plot that is entirely transparent and predictable from the

1st panel introducing the obvious antagonist. Scooby Doo episodes have more nuance. No humorous bits to even leaven the tedium a little. The author should be embarrassed by this "effort." 1 of 1 people found the following review helpful. Oriented for 12 year olds - Very simple teenage story By Saiffer Really REALLY simple teenage story (more than in 1st issue). Nothing funny or witty as you know from original TV Buffy series (or canonical comics series after that). This is definitely my last issue i bought. This series is really oriented for 12 year olds (I'm not trying to be mean, I really think this is meant for that age). For early teenagers it is ideal, because of nice art, no swearing, only little and very mild violence and some good (simple) advices (e.g. "cheating is bad"). 0 of 0 people found the following review helpful. Two Stars By James Scott I'm a big Buffy fan but the plot of this comic was just silly. Don't bother.

When Buffy and Xander sign up for home ec, assuming it will be an extra-credit cakewalk, they aren't aware that the teacher is a ravenous tiger demon in disguise. The demon's unquenchable appetite has him kidnapping his top students and forcing them to cook for him, and when Xander claims some store-bought treats are his own creations, he becomes the demon's next victim! It's not enough that Buffy has to keep her grades up, but she also has to rescue her friends and fellow students-and give the tiger demon his just desserts! From the series created by Joss Whedon (Firefly, Serenity, Cabin in the Woods, The Avengers, The Avengers II) Author Kel McDonald (Misfits of Avalon) and artist Yishan Li bring monsters and more high-school high jinks into the life of Buffy the Vampire Slayer! Set during Season 1 of the television series, Buffy the Vampire Slayer Praise for Kel McDonald's Misfits of Avalon: "McDonald has a real affection for magical-world building, and Misfits of Avalon is steeped in Irish mythology, which she has placed on a collision course with Arthurian legend." -io9 Praise for Kel McDonald's Sorcery 101: "When McDonald nails her world and character building, she really nails it." -io9

About the Author Kel McDonald has been working in comics for over a decade most of that time has been spent on her webcomic Sorcery 101. More recently, she has organized the Cautionary Fables and Fairytales anthology series, while contributing to other anthologies like Dark Horse Presents, Smut Peddler, and Sleep of Reason. She is currently working on the series Misfits of Avalon for Dark Horse Comics. Kel lives in Portland, OR.
