Gary Groth, Mack White (ed) : Bush Junta 25 Cartoonists on the Mayberry Machiavelli and the Abuse of Power before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bush Junta 25 Cartoonists on the Mayberry Machiavelli and the Abuse of Power:

2 of 2 people found the following review helpful. Informative art By J. Almanza Jr. This book was one of those books that comes out every 10 years or so to blow the cobwebs off our minds (in my humble opinion). This book exposes the criminal element behind one of the most powerful political family dynasties ever to rise in America. Loved by the ignoramus of America and hated by the insightful patriot, this book is filled with citations and events that were missed

in the public consciousness at the time. The events put in the book puts so many things in perspective it's difficult not to ignore the facts being thrown at your face. This book will make you hate the Bush Family and his team of rag tag neo cons even more if you already hated them in the first place. From Prescott Bush providing money to Hitler's war machine to W's war machine that eerily resembles Hitler's war machine, the Bush Junta should be read with an open, objective, mind. Any neo con loving American's head will explode when they read this great book composed by Mister Mack White and Company. Prepare yourself for the ultimate ride!

Bush Junta a Horrible Book! By Pat Williams
This book was not only hard to decipher but the drawings added nothing to it's verbal lack of appeal. Who would want to read that garbage!

A sobering, cutting edge look at unadulterated walking evil
By W. Perry Aggers
Kind of along the lines of "The Big Book of Scandal", only focused on one subject, "The Bush Junta" pulls no punches in dissecting a perilously evil cabal of chickenhawks commonly known as Bush's Cabinet. Hilariously illustrated by such artistic geniuses as Ted Rall, Scott Marshall, Ethan Persoff, the late, great Hack Smith and others, "Junta" chronologically deflowers arguably the most villainous political monarchy of modern times; starting with the infamous Prescott Bush/Nazi connection. It moves on to the Skull Bones years and then in one of the most chilling chapters, pulls the wool off of GHWB's incredibly corrupt CIA tenure. More disgusting and very true tales of deceit, corruption and flagrant neo-fascism follow, from the warwhores of the dying-empire stench of PNAC; the collection of shady reptiles known as the Carlyle Group; John Ashcroft's suppressive and incredibly bigoted years as Missouri's attorney general and governor; the megalomaniac warmonger and former Saddam cigar-buddy Donald Rumsfeld; Condoleeza Rice, the supposed genius who ignored a ton of pretty damning intelligence reports that could have thwarted 9-11; and finally, the chief snake and puppetbastard of them all - Dick Cheney. It's no secret or surprise that the key players of the Idiot-in-Chief's cabinet got their start or influence with the Nixon Administration. Most of the information presented here is probably not new to those that follow underground radio and internet sites. But for those who think the . . . er . . . "liberal media" (meaning, Faux News, which is about as liberal as your average John Birch member, GE-owned NBC, Disney-owned ABC, Viacom-parented CBS and CNN, which has turned into "Faux Jr." (rolls eyes)) is the be-all, end-all of truth and fairness; for those who are open-minded and won't brush this off as "more commie libtard lies" (it's backed by hundreds of footnotes, statements, excerpts, links and direct quotes, BTW), this will be a blow to the stomach like no other. At the very least, "The Bush Junta" will make you seriously question why this administration isn't telling you everything you need to know, why the biased cookie-cutter cable media will not call them on the issues that they have failed so miserably at and why you ever trusted your government in the first place.

Cartoonists from the United States and abroad take a critical look at President George W. Bush, his family, the policies and events of his administration, and the leading figures on his team.

About the Author
Gary Groth is the co-founder of The Comics Journal and Fantagraphics Books. He lives in Seattle.
MACK WHITE is a cartoonist whose work has appeared in "The Comics Journal, Snake Eyes, and "Villa of the Mysteries.
