Although I would much rather have a Feature Film or TV spin off, the Charmed comics are an amazing little treat for any Charmed fan. I personally have been

buying the separate issues, but decided to get the book as well because it comes with all the bonus issue covers (each single issue has 2-3 cover variants) and also a very cute bonus story at the end. Also, the paper quality seems much better. These first five issues take place about a year after the show ended, and although now they have like a million kids, luckily the emphasis of the book (and action) still revolves around our favorite three divas. The girls powers advance a bit as well, which is cool, and realistically for the price, u cant beat a "premonition" into the future of our favorite witches. Do urself a favor, and buy Charmed Season 9. Even in print, the girls can't be beat.0 of 0 people found the following review helpful. Three StarsBy Carla CogginsOkay1 of 1 people found the following review helpful. Bought for my wifeBy Nicholas CalderoneI have no clue what these books are about. I know my wife loves them so I bought them for her. She loves them so I guess It gets five stars.

Charmed Season 9 picks up where the TV show left off! With the source of all evil defeated, The Charmed Ones, three witches destined to be the most powerful force for good our world has ever known, have embraced a new life. One of new family, friends, and a future without the constant battle between good and evil...or so they think.
