It's clear that with volume four, Layman and Guillory assume we've come along for the long game. The story tension and mystery of the alien writing grows in volume four with answers yet to come. I look forward to continuing on.1 of 1 people found the following review helpful. A masterpiece that you're robbing yourself of if you haven't read it yet.By Sam WickedThe amazingly funny and creative team of Layman and Guillory have done it again. Volume 4 of Chew is just as exciting and mysterious as all previous volumes. Get into this story now and you won't regret it. The Omnivore Editions are as cheaply priced and overly beautiful as you can get. Image Comics great production continues as these books are made to last.
