John Layman : Chew, Vol. 5: Major League Chew before purchasing it in order to gage whether or not it would be worth my time, and all praised Chew, Vol. 5: Major League Chew:

0 of 0 people found the following review helpful. Majorly GoodBy EricI'm so glad I took a chance on Chew. I really think it keeps getting better with each volume. The story continues to unfold and keeps up the pace. We learn more about Tony's ability as well as his daughter's. This volume keeps up with the fun, humor and action of the other ones. The art is great and a style that really goes well with the tone of the book. I love noticing all the little things in the

background too. Makes me chuckle. If you read Chew before you probably know how much fun it is. This volume will not let you down. Pick it up. 0 of 0 people found the following review helpful. Still tastes good. By Steven Barrie I've said it for four volumes, and I'll say it again. CHEW is an amazing series. If you're not reading it, read it. With how well each issue and volume is structured, I'm relishing the growing tension of the series. There's no doubt in my mind that we're in for some rapidly moving volumes coming up, which is crazy to me because volume five flew by. Read CHEW. 2 of 2 people found the following review helpful. Baseball, Butter Sculpture, and Body Parts. By Pope Mel Okay. Picture this. Tony Chu wearing a kilt. Riding a segway. If you're still reading this and not out buying the latest volume of Chew, you must not be acquainted with this wonderfully weird series about an FDA agent with a very strange gift. - (See Chew, Vol. 1: Taster's Choice) It's a great day! Even Mike Applebee's sweat stains are smiling. Why? Because the bane of Mike's existence, Chu, has been demoted to traffic. Hence, the kilt/segway thing. But, this is Chu we're talking about here. Things will begin to get wacky before the ink on his first parking ticket has dried. This is a great addition to the series. You'll see plenty of familiar faces popping up in the book. Those astoundingly top-heavy gals from the USDA are back. So is sportswriter Dan, Amelia's insanely jealous and insanely insane ex-beau from the last installment. And two of my favorite things - coffee and chocolate - play a big part in the action. Where else can you find baseball, Elvis impersonators, butter sculpture, and severed limbs all in one slim, colorful volume. Welcome back, Chew.

Tony Chu the cibopathic federal agent with the ability to get psychic impressions from what he eats has been kidnapped! He was ambushed, knocked out, brought to a remote location, and bound securely. His captor intends to feed Tony from a menu of his choosing, to find out what Tony can see, in order to learn from him. His daughter, Olive, has been kidnapped for the exact same reason. Two kidnapers, two captives, and two very different outcomes. Presenting the fifth storyline of the New York Times bestselling, Harvey and multiple Eisner Award-winning series about cops, crooks, cooks, cannibals, clairvoyants and kidnapers!
