John Layman : Chew, Vol. 6: Space Cakes before purchasing it in order to gage whether or not it would be worth my time, and all praised Chew, Vol. 6: Space Cakes:

0 of 0 people found the following review helpful. CHEW brings on the feelsBy Steven BarrieWith Tony out of play, volume six gave a lot of attention to the supporting characters - especially Toni. I never would have expected the emotional tension of this series to increase so dramatically without the main character being involved. But it did. It really did. Now I go forth into volume seven with renewed gusto as the world we know - and Tony eventually rejoins -

has fundamentally changed. 1 of 1 people found the following review helpful. Eat This Book By Marc Horn Master chefs and gourmands John Layman (author/lettering) and Rob Guillory (artist) have created a frog-licking psychotropically delicious treat. This concoction really is better than all the rest and in large part it is due to the sublime kasanegi layering of familiar delicacies that Marvel the palate. Isn't that a little taste of Witchblade con Pollo... One of the most satisfying of these layered surprises is the ongoing joke between Toni and an all too familiar looking agent ala Pulp Fiction. When you finally get to the reveal, it's better than catsup. Feed your head. Warning the FDA has determined that Chew is highly addictive and mind altering. 0 of 0 people found the following review helpful. Still Going Strong By Eric If you are looking into volume 6 you probably already know that Chew is a fun ride with action and humor. Vol 6 keeps it all coming. No drop in quality. The story continues to develop and get more insight on some points. Tony is layed up in a hospital so we get to see more from other characters. Chew is amazing. Pick this book up.

While Tony Chu the cibopathic federal agent with the ability to get psychic impressions from what he eats clings to life in a hospital ICU, his twin sister Toni steps up to take center stage. Toni is cibovoyant, able to see the future of anything she eats, and, lately, she's seeing some pretty terrible things. Presenting a new storyline of the New York Times Bestselling, Harvey and multiple Eisner Award-winning series about cops, crooks, cooks, cannibals, and clairvoyants. Collects issues #26-30, plus the blockbuster spin-off one-shot that stole America's heart, Chew: Secret Agent Poyo.
