Freaking amazing !By AndreEveryone else has written a lot so not much else to give other than 1) I rate it 5 stars and 2) I rarely give out 5 stars.. it has to be in the same league as what many would consider the "legends" of the comic book industry.. Sandman by Gaiman, Preacher/Hellblazer by Garth

and Ennis, Swamp Thing/original Watchmen/V for Vendetta/Killing Joke by.. pretty sure those were all Alan Moore could be wrong.. Kingdom Come by DC .. but Chew, definitely 5 stars.I do have to point out that the lack of super hero " bam , pow ! " .. the emphasis more on what you would see in the "real world" albeit with subtle , interesting changes so grounded in the real world that they don't seem that far apart from it compared to the more "epic fantasy/science" things you see in comics.. might be off-putting to some readers who want more of the above mentioned thing... but to me the joy of Chew is just that, it's so grounded in what we would consider stuff that " could happen in the real world" .. add in some very interesting characters who we see "in depth" so to speak and interesting plotlines and you have yourself a winner.. I've read at least 24 issues of Chew and thoroughly enjoyed each and every one..0 of 0 people found the following review helpful. Refreshingly uniqueBy Mr. BurgerUnique story! Tired of the same old brooding super heroes? This book series is a fantastic break from the norm. Enter a world where chicken is illegal, the FDA has become one of the most powerful law enforcement agencies in the world, many of the super powers are food based, and there is almost always a suprise on the next page.0 of 0 people found the following review helpful. Cannibals for Justice!By CustomerThe concept of this intrigued me so I bought it sight unseen - and that was the problem. Having read it, I still find the concept interesting and the art is good. However, the concept of cannibalism to solve crime was surprisingly difficult for me to, er, swallow.As such, I am torn. I would like to see where the story goes next, but I am not sure I am so committed that I really want to read my way through another stomach turning GN, much less pay for another serving.

From the Back CoverTony Chu is a cop with a secret. A weird secret. Tony Chu is Cibopathic, which means he gets psychic impressions from whatever he eats.
