**Mark Millar : Chrononauts** before purchasing it in order to gage whether or not it would be worth my time, and all praised Chrononauts:

0 of 0 people found the following review helpful. Just Plain FunBy Zac HanscomChrononauts, Vol. 1 is yet another badass volume from Image, created by Mark Millar and Sean Gordon Murphy. It tells the story of Corbin Quinn and Danny Reilly, two scientists who are studying the phenomenon of time displacement. Cars are being found under ancient Mayan tombs. A Tomcat fighter jet that went missing during the Vietnam War turns up in an ancient burial

mound in England. What follows is a madcap adventure through time itself as the two scientists get into all sorts of trouble. The resolution of this arc is simply perfect, and I wasn't surprised when I found out that this comic is under development at a major studio. What makes this comic great is how fun it is. This isn't like reading Salman Rushdie or Thomas Pynchon; it's straight-forward fun. I continue to be amazed at how great Image is at making comics. Mark Millar, of course, is a near-superstar writer, having penned *Superman: Red Son*, and this is nearly as good as that was. Highly recommended. \*\*\*\*1/20 of 0 people found the following review helpful. For the price, this story is hard to beat. To me, Mark Millar is basically the Michael Bay of the comic book world. Both make fast paced action heavy stories that make up for their lack of substance with just overall enjoyability. This book isn't any different. I read it in a little over an hour during a flight and I plan to revisit it again in the near future. Fun story about time travel with great little kitschy historical jokes thrown in. Also the art isn't a style I normally and attracted to, but it fits the story well and makes the action feel as big as the story gets. 1 of 1 people found the following review helpful. Three Stars. By Derek P. Murphy's artwork is great, as usual, but Millar's story is pretty simple and predictable.

Corbin Quinn and Danny Reilly are two red-blooded American guys who also happen to be scientific geniuses. With the whole world watching, they embark on the world's first time-travel experiment. But when their planned routine goes off-course, they're left to fend for themselves leading to an era-hopping adventure! From ancient Rome to the roaring twenties to the 1980s music scene, Corbin and Danny wreak havoc with the time stream, score front-row seats to the world's wildest events, and get into hijinks with history's scariest villains. But is it worth the price, when they have unresolved problems to address back home in the present day and a team of angry bosses ready to do whatever it takes to rein them in? This story unites the talents of writer Mark Millar (*Kick-Ass*, *Kingsman: The Secret Service*) and artist Sean Gordon Murphy (*Punk Rock Jesus*) two powerhouse figures in the comics world, whose combined forces must be seen to be believed.
