**Leif Jones : Comic Book Tattoo Tales Inspired by Tori Amos** before purchasing it in order to gage whether or not it would be worth my time, and all praised Comic Book Tattoo Tales Inspired by Tori Amos:

21 of 21 people found the following review helpful. Brilliant, Not just for Tori fansBy BrittanySo if you're a Tori-phile, I'm guessing you'll buy the book, no questions asked. You won't be disappointed. Even if you're not a Tori fan, or not even a comic fan (I'm not), I think you'll love the book. Each story is beautifully and fully rendered. It's amazing to see someone else's interpretation of a song that you thought you had figured out all the ins and outs to, and see how far their ideas can be from your own. Several of the stories gave me goosebumps, and I haven't even finished yet. I would recommend considering buying the hard cover or the LE. I got the paper back and it is lovely, but so big that it would be nice to have in hardcover. I'm so pleased to own this book: new ideas to mull over, beautiful stories to move me, and a great conversation piece for my coffee table. Neil Gaimans introduction is beautiful as well.3 of 3 people found the following review helpful. Excellent!By Holly BaileyI spent my entire day today reading Comic Book Tattoo. I was surprised and somewhat relieved to find that the stories are not stories about the songs word by word. In

Tori's afterword she explained that she wanted the writers and artists to dream, not do "cover versions" of her songs, and dream they did! I recommend getting this in hardback. I put the book on my scale and it came out 14lbs! (est. shipping weight is 7lbs) I'd be terrified I'd read the paperback to pieces because it's such a massive book! I guarantee that even if you are not a Tori fan you will love this collection of stories! They are strong beautiful, and full of life! Some are funny, some are tragic, and some are delightfully whimsical. There is something for everyone here! 2 of 2 people found the following review helpful. Hopefully the start of something new, that will continue~By JonathanUnrestrained creativity. Total abandonment to their passion for the work, the artists and writers of every story and the musical artist that inspired them. This book is succeeded evidence of the arts crossing pathways to create a new tapestry of artistic experience and expression. It takes a beautiful genius to develop this kind of thing. Someone with a deep love for the work of others as well as an acute vision of them and a deep passion for their own work, not hindered by barriers or ego. Every song, every story is a fresh beginning, yet a chapter within a larger story intricately woven together with eclectic synergy and style. Totally Awesome and Highly Recommended!

Over 80 of the best creators from every style and genre have contributed over 50 stories to this anthology featuring tales inspired by the songs of multi-platinum recording artist, Tori Amos! Featuring an introduction by Neil Gaiman, with stories by creators such as Carla Speed McNeil, Mark Buckingham, C.B. Cebulski, Nikki Cook, Hope Larson, John Ney Reiber, Ryan Kelly, and many, many others, Comic Book Tattoo encapsulates the breadth, depth, and beauty of modern comics in this coffee table format book.
