Lance Brendan Young, Cynthia O'Toole, Bianca Wolf : Communication Skills for Dental Health Care Providers before purchasing it in order to gauge whether or not it would be worth my time, and all praised Communication Skills for Dental Health Care Providers:

This evidence-based textbook presents the essential communication strategies clinicians should know to facilitate interaction with patients. With a focus on practical strategies instead of dense communication theories, the authors

facilitate improved patient-provider communication and demonstrate how to elicit accurate patient information during the health interview, communicate effectively during examinations and procedures, and present preventive and restorative treatment plans from a patient-centered perspective.
