Robert Kirkman : Complete Invincible Library Volume 3 (Complete Invincible Library Hc) before purchasing it in order to gage whether or not it would be worth my time, and all praised Complete Invincible Library Volume 3 (Complete Invincible Library Hc):

3 of 3 people found the following review helpful. Each and every volume is perfectionBy Matt StevensUPDATED

REVIEW: At first I thought Image had dropped the ball and delivered a glued binding instead of oversewn, as volumes 1 and 2 were. In act, this volume IS oversewn, but also has a kind of glued adhesive in between the cover and the back of the pages. This apparently will allow it to remain sturdy for years and not collapse under its own weight. it DOES mean it will not lay perfectly flat when opened on a table. Volumes 1 2 can be. But this is NOT a glued binding and apologies for misleading anyone with my first review. Page quality is high, with magnificent color retention and sharpness. Kirkman loves writing stories with 6 to 10 panels per page and that is perfect for a super-sized format like this. As always, Ryan Ottley delivers the goods. Issues without him feel flat and spineless and that is not really Kirkman's fault. It's just that Ottley now IS the look of this series and without him, it just doesn't feel right. When he leaves, if he leaves, well, I don't want to think about that. This run was a hell of a read and I think one story arc about midway through was so good, it might be the best 80 to 100 pages in the history of the series. I do not buy this book monthly. I read it every two+ years upon the release of these volumes, so the wait is a horror. Yet worth it. Like Harry Potter fans who died between volumes and then sucked it all in over two nights, I grad these editions and read them in two nightly bursts. A third night is then spent looking over the always cool extras. Amazing as it may sound, I have read the first volume five times. The second maybe three times or four and in the days before the release of this third volume, read 1 and 2 again to get myself pumped up. The only series that comes close to this is WALKING DEAD. Hmm... I wonder who writes that one? 0 of 0 people found the following review helpful. Expensive but awesome edition By Billy J. I love the Invincible series, and a lot of people are going to look at this and be deterred by the price. It's really not too bad if it's a first-time purchase. In that instance, I'd definitely just go ahead and pick this up. It's nice with the oversized art and additional content. It's a little harder to justify for those who already own the issue contained within. Still, it looks awesome on the bookshelf.

Collecting the Invincible Ultimate Collection Volumes 5-6 into one massive, slipcased tome! That's almost 700-pages of pure Invincible goodness! This is a can't-miss for any Invincible fan and a perfect addition to any reinforced, sturdy bookshelf.
