I bought the Conan Omnibus Volume 1, from SuperBookDeals.The new series are amazing. The storytelling is spellbinding, and the artwork is enthralling. I will definitely be buying the next Omnibus. For the seller, I have to say that the service is excellent. First, the package

came before the delivery date, which is great. Second, it came without a single scratch. I will be buying again from this seller. I highly recommend it. 0 of 0 people found the following review helpful. Well done

This is a fine volume, something the movies could learn from. While it's the third time I've seen an adaptation of the Frost Giant's daughter and the second for the God in the Bowl, they are well done and worth reading. A good revisit to Conan and an honor to the name of Robert E. Howard.

A great beginning to the Conan saga. You see how the young Conan begins his legend. Starts out slow but increases in intensity. The artwork is first rate and matches the story line.
