Yet when I began to journey through the storyline, I was immediately drawn to the creativity of both Puryear and Alexander's storytelling and artwork! A superb original and engaging story!1 of 1 people found the following review helpful. Give in to scarcity to survive

Scare City. By Mark A. Harris So, here is the deal. Taking a journey into this dystopian world of prisoners, lacking resources, and killers only made this story that much better. Why go the easy route of self discovery (happenstance)? How about letting the world open up to you and reveal your destiny? This is what happens for Isaac after his arrival in Scare City. From there, things just go haywire. Yet, it all comes together due to great writing, gritty visuals, and enriching characterizations. This comic, by far, is a winner. 0 of 0 people found the following review helpful. Sooo much love for this series! Cannot wait for the next installment. It's getting jucier all ready. I appreciate the amount of time and effort that went into developing "side" characters in a way that pushes the details of the "main" characters to the side temporarily. I love that! It helps immerse you into their world and reminds up that this city is filled with so many emotionally complex people.

Isaac and Luca's dangerous attraction ignites, and Scare City burns. A strange destiny awaits them in the ancient ruins the exiles call Concrete Park. Concrete Park--a dark, sexy sci-fi saga by Tony Puryear (Eraser) and Erika Alexander (Living Single)--concludes its "R-E-S-P-E-C-T" arc!
