Frank Miller : Daredevil: Born Again before purchasing it in order to gage whether or not it would be worth my time, and all praised Daredevil: Born Again:

0 of 0 people found the following review helpful. The Best Daredevil story arc of them all!By CoachDI remember reading these issues years ago when they were first published and it felt so good to re-read them in this most excellent collection. Miller's writing is fantastic. Matt Murdock goes thru hell and then redemption. I need to read this again in a few years. I never get tired of this story.0 of 0 people found the following review helpful. Daredevil retroBy Magnus

Magnusson I have always been very fond of Daredevil in all his evershifting personalities. He was the first Marvel character that really became known and read in my country Sweden and he outdistanced Spiderman and Fantastic Four that made it for real much later even though they appeared at about the same time. Here we have a classic story-line from rather long time ago where the demons of his life are pushing very hard and breaking him. A theme which has been used quite a lot of times afterwards. This classical collection is very nice but I feel the age and the punch of the story is no longer that strong as it (probably) was when the story was new. 82 of 85 people found the following review helpful. All you need to know: BUY THIS BOOK By F.E. I had heard a lot about Daredevil: Born Again and how amazing it was, and I didn't doubt it. I'm a huge fan of Frank Miller's run on Daredevil, but I always put off buying this book because I'm really cheap like that. So when I finally got the nerve to pony up and buy it, I was little worried it wouldn't live up to the hype. I'm here to tell you, believe the hype. It BLOWS AWAY Frank Miller's previous work on Daredevil, and in my opinion even tops Batman: Year One or Batman: The Dark Knight Returns. I've read hundreds of Marvel comics, from the 60's to the present day, but none come close to being as epic as Daredevil: Born Again. It is really that good. Miller's writes drama and tension as good as the best Hollywood films. and Miller summarizes David Mazzucchelli's art in a blurb at the end of the story quite nicely: "It's almost criminal how easy David makes it to write a script. He makes a three-dimensional stage of the individual panel, complete in authentic detail, nonetheless uncluttered and utterly readable. He creates actors whose dramatic range is startling, whose best and most compelling moments are wordless. He's talked of writing his own comics. Keep your eye out for them. I will. - Frank Miller, 1987" (Incidentally, Mazzucchelli did in fact write and draw his own graphic novel, Asterios Polyp, which was released in 2009 to stellar reviews. Although I wouldn't know since I haven't read it yet... again, I'm very cheap.) The hardcover is of good quality too. The only problem I have is how Marvel collected the issues. This book contains Daredevil #226-233, which were all done by Miller and Mazzucchelli. But since Born Again starts in issue #227, Marvel decided to stick issue #226 all the way at the end of the book, which doesn't make sense to me. Although not officially part of the story, #226 works as a prelude to Born Again, introducing some characters and elements that play a pretty big role. So I highly recommend going to the back of the book and reading that issue first. Be careful not to spoil yourself by coming across the last few pages of the main story. This is the only problem I have with an otherwise amazing collection. My final advice: if and when you buy this book, read it all at once. You can thank me later.

Matt Murdock's personal life and career spiral out of control after the Kingpin learns his secret identity as Daredevil from a drug-addicted ex-lover and uses the information to destroy him.
