Jeph Loeb and Tim Sale's books are a nostalgic, fun look at the early days of the Marvel Universe. My only gripe, and why this gets 3 stars instead of 4 is that events in this book don't always match up to the

established continuity like Matt's Dad dying while Matt and Foggy are in college. Those odd changes pulled me out of the story. 0 of 0 people found the following review helpful. I just enjoyed both readings By Helio Totally worth it. I'm not a DD super-fan but every Loeb/Sale work I have read is a remarkable comic-book. I read about the incoherence between Yellow and The man without fear (Miller/Romita Jr.) but as I'm not a true fan, I just enjoyed both readings. The colors collection as a whole and every single color comic-book are master pieces and it should go on (do you hear me Marvel? it should go on). 0 of 0 people found the following review helpful. Quality that you expect from this creative team By K. Thomas I love this team so much! Loeb/Sale quality on par with "Long Halloween." Sale's art is just fantastic. I really love Karen's expressions in this book. She's got these giant, endearing moon-eyes, and everything in these pages, from the characters to the plot to the setting, is atmospheric, evocative, and a little elegiac.

In this retelling of the early career of The Man Without Fear, the Eisner Award-winning team of Jeph Loeb and Tim Sale have taken an inspiring action adventure story and blended it with a romantic comedy. The result is the heartwarming and heartbreaking story of two young people in love--Matthew Murdock and Karen Page.
