**Paul Kupperberg : Daring New Adventures of Supergirl Vol. 1** before purchasing it in order to gage whether or not it would be worth my time, and all praised Daring New Adventures of Supergirl Vol. 1:

them easier. Thanks and appreciate it. 0 of 0 people found the following review helpful. Supergirl by Infantino. A good match. By Customer I was drawn to this by the fact that this was Supergirl as drawn by one of DC's legendary artists, Carmine Infantino. He had not lost anything, but really could have used a better inker (although DC had a shortage of good inkers as far back as the early '70s, as the 3 good ones they had could only do so much). 13 of 16 people found the following review helpful. A Very Strange and Special Heroine! By Reed This TPB collects the first 12 issues of The Daring New Adventures of Supergirl, originally released in 1982. Featuring fantastic artwork by the incomparable Carmine Infantino and Bob Oskner, and some interesting writing by Paul Kupperberg, these stories introduce a new direction in Kara/Linda Lee/Supergirl's life, something she desperately needed. Kupperberg decided to differentiate SuperGIRL from SuperMAN by taking her out of television (just like her cousin Clark Kent) and placing her back in a college setting in Chicago, where she decides to major in psychology. As she explains to her new friend Joan Raymond, "I suppose I've always been interested in how the human mind functions..." which makes perfect sense, considering the criminals she's fought in her career! Paul Kupperberg introduces a diverse cast, from the stereotypical Jewish landlady Ida Berkowitz to the African-American couple Cheryl Delarye and Daryll Simmons, from her absent-minded Psychology adviser Dr. Barry Metzner to her doofus neighbor Johnny O, all of whom end up kidnapped, in danger, or otherwise not so discreetly placed in the middle of the action the moment Supergirl enters their lives. Kupperberg works hard to give Kara a real personality, and succeeds- Kara comes across as funny and witty with a positive point of view, as she observes to herself early on; "Sure I was different from the other kids, but in my case, different wasn't bad--it was special." She even takes a train from NYC to Chicago, even though she could have flown herself, in order to be as 'normal' as possible. As she adjusts to life in Chicago, Kara gets a visit from her adoptive parents, fights new baddies like Psi, Decay, Matrix-Prime, and the Gang, and teams up with the New Doom Patrol to fight Reactron, which leads to one heck of a final confrontation with The Council. She also, despite being doused with a serious case of radiation poison, manages to go out on a date with cutie Phil Decker during all this. I would have given this TPB 5 stars, except that a special sneak preview of this new direction, which had Supergirl explaining the reasons for her move to Superman in Superman #376, wasn't included, and it should have been. This TPB says Vol. 1, and I really hope it sells well enough to warrant a second volume, which would conclude the run by Kupperberg and Infantino, and showcase Supergirl's new costume, headband, and hairstyle and feature guest appearances by Superman, Ambush Bug, and battles with Blackstarr and the Parasite.

She was only 15 when she first came to Earth, fleeing the destruction of her worlds last refuge. Following in the footsteps of her legendary cousin, the Kryptonian teenager named Kara Zor-El joined Supermans never-ending battle for truth and justice as his partner in crime-fighting Supergirl! But the Girl of Steel isnt a kid anymore. With high school behind her, this hero is ready to fly on her own! Disguised as the brilliant brown-haired college student Linda Danvers, Supergirl sets out from the safety of Metropolis to see her adopted country for herself. From the streets of Chicago to the hills of San Francisco, she encounters loyal new friends and powerful new foes, astounding new discoveries and terrifying new dangers. Can she stand on her own outside of Supermans shadow? Looks like this is a job for Supergirl! The original icon of girl power hits new heights in THE DARING NEW ADVENTURES OF SUPERGIRL, collecting issues #1-12 of the classic series by writer Paul Kupperberg and legendary artist Carmine Infantino. Whether youre a longtime fan or a newcomer to Karas world, youll believe a girl can fly!

About the Author The man most closely associated with the Silver Age Flash, Carmine Infantino began working in comics in the mid-1940s as the artist on such features as Green Lantern, Black Canary, Ghost Patrol and the original Golden Age Flash. Infantino lent his unique style to a variety of super-hero, supernatural, and Western features throughout the 1950s until he was tapped to pencil the 1956 revival of the Flash. While continuing to pencil THE FLASH series, he also provided the art for other strips, including Batman, the Elongated Man and Adam Strange. Infantino became DC's editorial director in 1967 and ultimately its president before returning to freelancing in 1976. Since then he has pencilled and inked numerous features, including the Batman newspaper strip, GREEN LANTERN CORPS and DANGER TRAIL.
