the run of Supergirl's 80s solo run- for those of you who enjoy the character on tv or on the page the focus is all on her in this book. Worth a look if you grew up with it or want to see some art from the Bronze age of graphic work. It's light and fun compared to the themes and stories that came after- all things considered.0 of 1 people found the following review helpful. reading supergirl vol 2 its fun to haveBy stephen dixonreading supergirl vol 2 its fun to have
