Matt Fraction : Dark Avengers/Uncanny X-Men: Utopia before purchasing it in order to gage whether or not it would be worth my time, and all praised Dark Avengers/Uncanny X-Men: Utopia:

1 of 1 people found the following review helpful. Go west, young goblin.By Ian McKeeAs the dark reign of the goblin king continues, circumstances demand that Osborn and his flying circus(literally thanks to the helicopter) go west to San Francisco to quell riots. Naturally, Osborn takes this opportunity to strengthen his grip on the marvel universe, in this case the mutants, whom do far have remained largely free of his influence. But in San Francisco Osborn encounters something he was not expecting, a true equal and rival in Scott Summers, the Cyclops. This is a man who

loves it when a plan comes together, and watching his verbal duels with Osborn were the highlight of the book for me. This collection has the whole crossover that is Utopia, along with the Confession, which caps off the Scott/Emma pressure that is a major facet of the story, as well as a three part miniseries that explains why the various members of Osborn's X-Men team signed up. Also there are two issues of another X-Men book that follow Rogue and Gambit. Of these other stories, I liked the Confession the most. I've always liked Scott and Emma together, and this issue cemented to my why they work so well together. Basically the entire issue is just the two of them confessing (hence the name) various secrets that have built up between them. Emma's secrets are kind of par for the course with her character, but don't require a lot of prior knowledge of her. Scott confesses about X-Force, which if you don't know the book kind of explains but a lot of the impact of what he did is lost without prior knowledge. The art is good the whole way through the collection, Deodato and the Dodsons draw most of the book and they probably some of my favorite artists. 2 of 2 people found the following review helpful. loved it buy!!!! By fpw250 I loved this graphic novel except for a couple of things. 1 on some pages there was a big black bar that goes across the page and it covers up a big part of the panels on that pages. 2 the difference in art from chapter to chapter or book to book is big and was a bit of a turn off but you do get used to it after a page or two. (only a minor quibble but you still will wish it wasn't like that) 0 of 0 people found the following review helpful. Excellent shipping. By Super Normal Guy Arrived in perfect condition, was very impressed. The novel content itself is very entertaining, I am limiting myself to one section at a time to thoroughly enjoy it.

WHO ARE THE DARK X-MEN? He has his own Avengers team and now Norman Osborn has his own X-Men team. The other shoe has finally dropped and Emma Frost has betrayed Cyclops and the rest of the X-Men. And that's just one of the huge surprises in "UTOPIA". Is that Namor? Cloak and Dagger? Professor X?! The thing that you aren't ready for is that Osborn is right. Collects Uncanny X-Men #513-514, Dark Avengers #7-8, Dark Avengers/Uncanny X-Men: Utopia, and Utopia Finale.
