The illustrations are beautiful and has a vast wealth of awesome information that any DC Comics and / or comics fan will Love! The case that comes with the book is beautiful with the New 52 Justice League drawings by Jim Lee. I just don't know why they cut off FLASH, AQUAMAN CYBORG from the lineup? Oh well, I HIGHLY recommend this book! A+++0 of 0 people found the following review helpful. Artistic in look and useBy Jasmin M.Bought this for my husband for Christmas, he absolutely loved it! Trace DC's fascinating story: the company's beginnings as National Allied Publications in the 1934, and its subsequent change to Detective Comics, Inc. in 1937. The book details all the major DC publishing landmarks and more, displayed clearly, month by month. Highlighting the debuts of iconic super heroes like Superman and Batman, the geniuses that invented them, and the real-life events, like the Vietnam War, the atom bomb, and the Space Race, that shaped the atmosphere of the times, DC Comics: A Visual History follows the characters' foray into the real world through TV series and blockbuster movies. Foreword by Paul Levitz, former president of DC Comics (2002 - 2009.)
