Rick Remender : Deadly Class Volume 5 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Deadly Class Volume 5:

0 of 0 people found the following review helpful. Five Stars By Michael Rich great speed and product! 0 of 1 people found the following review helpful. Good read, but not the best in the series By JBarnhart Not as interesting as some of the others in this series. Still a good read 6 of 6 people found the following review helpful. an interesting series continues to provide excellent entertainment By Frank L. Greenagel II This is one of the most entertaining titles in

comics now. I am of the strong belief that this is Rick Remender's best work. Unlike so many ongoing series, Deadly Class is set with actual dates and locations. Volume one begins in the the fall of 1987. This volume takes place in the fall of 1988. The artists on the book have accurately captured the furniture, dorm rooms, clothes, cars and mood of the era. As we saw in earlier volumes, Remender has no problem killing off both minor and major characters. The end of volume 4 was actually shocking. Volume 5 takes place a few months later as the students at the incredibly dangerous high school for assassins have moved into the next academic year. There is a new class of freshmen from around the world - they fall into a number of stereotypes, but the characters are still interesting and occasionally amusing. So much of Remender's other work (Low, Black Science particularly) contains psychobabble that he has picked up in dealing with his own issues (I'm not criticizing his own experience with depression, but rather his overt attempts to work it out in his writing in over the top fashion). Thankfully, this book does not suffer from any of that. He allows his skill for plot and dialogue and character development to rise and take hold - if he can do this in his other work, he will have turned a very significant corner in his maturation as a writer.

Its morning in America, and a new era of DEADLY CLASS begins here! The survivors of last arcs brutal finale barely have time to consider what theyve done before a new class of kids arrives at the school, eager to pick up the bloody mantle. Collects issues 22-26
