**Fabian Niecieza : Deadpool Cable Ultimate Collection - Book 2** before purchasing it in order to gage whether or not it would be worth my time, and all praised Deadpool Cable Ultimate Collection - Book 2:

1 of 1 people found the following review helpful. May be the most favorite of all marvel series I have ever readBy FlailureMay be the most favorite of all marvel series I have ever read. Certainly there is no other series that is better, and very few that come close. The only negatives I have to say about the series is the nearly complete disappearance of cable towards the end of vol 3 and the need of a few other collections to fill in some of the gaps not included in this

collection of 3 volumes. Other than those negatives, I cannot speak enough positive words to adequately describe this series. It is a must read for any marvel fan, and I cannot recommend it enough, some of my most favorite scenes of all time are included in this book, cable as a medieval swordsman fighting a early apocalypse (very 80s metal by the way), a rapidly aging from a baby to adult cable sitting in a bar telling stories with deadpool, and many more. 0 of 0 people found the following review helpful. It was a really great comic collection not as good as the first collection ...By Casey Fuller It was a really great comic collection not as good as the first collection series in my oppinion but it still was a great read. The only real issue I had was the artist change. It kinda took away some of the stories greatness but it wasn't too bad. Still a great collection for a great price on . I wish they would use this story for the future if they do a Cable and Deadpool spinoff movie because its an amazing story! 12 of 12 people found the following review helpful. Great book! By T. Chamberlain I'll admit, after reading Cable and Deadpool Ultimate Collection Book 1, I was skeptical about buying this one. But this is were the series really picks up. Starts to get into character backgrounds and gets really dramatic. Much better than the first.

Deadpool finally gets hired for a job! There's a missing hard drive, and whoever gets it could very well own the world! Naturally, our merc with a mouth is going to find it first, right? Well, only if he can outwit that superspy known as the Cat and slide by the undulating charms of three gorgeous and deadly snake chicks.
