Joe Kelly : Deadpool Classic, Vol. 2 before purchasing it in order to gauge whether or not it would be worth my time, and all praised Deadpool Classic, Vol. 2:

1 of 1 people found the following review helpful. More of Deadpool and His Origins! By BlueStar In the second installment of Joe Kelly's wonderful Deadpool run, the mouthy merc faces off against the expert fighter Taskmaster and loses a finger in the process! In an effort to get his regenerative properties back to full function, he has to take a blood sample from the incredible Hulk and that's not something that can be done easily! Wade also runs into a man

from his dark past and only Siryn of the X-Force (and love interest of Deadpool) can stop him from mutilating the man responsible for making Wade the horrendous nightmare he is today! Deadpool also has a tangle with Vamp and then runs into Typhoid Mary and tries to help her mental state! Coinciding with the Deadpool/Daredevil '97 Annual, Deadpool brings Mary and Daredevil together to reconcile past incidents. However, Mary's maniacal ways prove to be too much for even Deadpool to handle and he must stop the monster he unleashed! Also, in the #-1 issue, Deadpool's origins and his first love interest are revealed! This trade paperback contains issues #2-8 as well as Deadpool/Daredevil 1997 Annual and the #-1 issue placed between issues 5 and 6. The stories here are well done and seeing Tasky in a newly-colored costume was nice even if it was only for one issue. The issues all line up pretty well and make one big story although T-Ray threatens to kill Deadpool on several occasions and never really does anything (except light Wade's head on fire.) The Typhoid Mary arc that crossed with the annual issue was really well done and showed a "heroic" side to Deadpool in his quest to save someone he saw as savable. Of course Weasel and Blind Al appear frequently and, through almost every issue, we get to hear classic lines like "Uh-oh! Sentimental scene alert! Launch a preemptive wedgie!" and "Hairy Zeus on a Traffic Light!" McGuinness and the gang do a good job of drawing Deadpool but some of their characters look a bit off; most notably Blind Al and Patch look very..."off." Deadpool, sans the mask, also looks like he could be the son of the Thing. They didn't quite get the whole "disfigured" look down yet. Otherwise, the guest appearances worked well and the writing by Joe Kelly was great. The Hulk fight was a bit of a letdown and Taskmaster should have been in these issues more but the Typhoid Mary arc was the real highlight. Chang's work on the annual issue looked very well (better, at times, than McGuinness's work in the ongoing series) and Lopresti's penciling did well for the -1 issue but it was nothing special. Overall, it was a good read but I hope it gets better from here. 1 of 1 people found the following review helpful. REALITY IS OVERRATED!!! By Brian This chimichanga eating 4th wall breaking merc is the very definition of awesome!! He is so unpredictable he always manages to keep you entertained by his sheer madness. To quote weasel "you truly are a heartless psychopath" this is a must read 1 of 1 people found the following review helpful. Came late, stayed all night By E. Schmidt I confess I really did not know much about Deadpool before previews for the Ryan Reynolds movie. That movie That movie! That movie had me completely hooked on the character of Deadpool. I had to have more. I had heard that Ryan Reynolds was born to play that role, but far too often Hollywood changes everything about the beloved characters of novels, graphic or otherwise. I needed to know where Deadpool came from. To know if there was more of this character out there that I was missing. And was there ever! This Collection includes a fascinating encounter with the Incredible Hulk and the introduction of Deadpool is the one on the side, typhoid Mary. Deadpool is just the perfect character to follow. Where have you been all my life, Deadpool?

Landau, Luckman, Lake want Deadpool to rebuild himself as a hero - but he'll be lucky to pull himself together as he is! His healing factor's down, the only thing that'll juice it up is a dose of the Incredible Hulk's blood - administered by the Weapon X alumnus who helped make Deadpool what he is in the first place!
