Cullen Bunn : Deadpool Killustrated before purchasing it in order to gauge whether or not it would be worth my time, and all praised Deadpool Killustrated:

This is going to be a Christmas gift so I didn't mind. Got to take a look inside and I do believe my daughter will love this. I have bought many other Deadpool books like this and she enjoyed reading each one. 1 of 1 people found the following review helpful. Five Stars By Kira Hilarious, well drawn, and worth

the time/money. So just buy it. 0 of 0 people found the following review helpful. Dead Characters Society By Kindle Customer This was a fun read. A bit less rushed than Deadpool killing the Marvel Universe. The humor is better as well. Knowing all of the classics referenced made it more humorous. The expanded scenes are good times but some feel a bit incomplete. A totally solid read overall though.

Dadpool has already killed every hero in the Marvel Universe, but he isn't through. This time...Deadpool's gonna take down the most famous characters in classic literature! Why read a book when you can watch a book die?! Tom Sawyer gets slashed in TWAIN! The Little Women's throats MAY get ALL-CUT! Scrooge gets a visit from THREE BULLETS! Gulliver gets a SWIFT DEATH! The Three Musketeers are all for DONE! Sherlock Holmes gets to the bottom of HIS OWN GRAVE! And more book-related puns! Can Deadpool rid the universe of the scourge of classical literature? Throw away your library card and buy this book! You never knew how badly you needed this!
