Tim Seeley : Deadpool vs. Thanos before purchasing it in order to gage whether or not it would be worth my time, and all praised Deadpool vs. Thanos:

Spider-Man like central character and a two ton chunk o' purple as a sidekick chasin' Ms Death. The only one missing was old school Doctor Strange. Well done team. More like Deadpool AND Thanos.By Reinold F.Not what I expected, I thought more in Deadpool Vs Thanos but it's more about both as detectives investigating a case. With that in mind I think that it's enjoyable as both of them are quite different. Is not a story with big pretensions but funny, probably the only deceiving bit is the title.2 of 2 people found the following review helpful. Great One OffBy Mo HarkerLots of fun. The Merc with the Mouth is back and on a question to save his lady love, Death, all the while dealing with the Mad Titan. There are some great jokes, and some amazing insight and pathos from Deadpool. Wade is crazier than a S*** house rat, but he has great observational skills about himself, the world, death, Death, Thanos and all points in between. Great little one off.

When life in the universe suddenly stops dying, Deadpool suspects his former rival, Thanos the Titan. As the two lovers of Death (in both its physical and theoretical manifestations) battle to save the universe from immortality, they must confront their own reasons for living and their passions for dying.
