Fabian Nicieza, Reilly Brown : Deadpool vs. the Marvel Universe before purchasing it in order to gage whether or not it would be worth my time, and all praised Deadpool vs. the Marvel Universe:

Starts with an adventure with the x-men, mostly Wolverine. During a small fight Wolverine damages the time placement thing which has Deadpool and Bob jumping every where at different times. He jumps to adventures with Captain America and his sidekick Bucky, 2 versions of

the Fantastic 4, Dr Strange, dinosaurs (which he sends to Manhattan), and a few others. In Manhattan he gets help from Spiderman, Mrs Marvel, Mr Wonderful, the Fantastic 4, the Avengers, to fight the dinos. It is funny seeing Deadpool with other heros with his craziness and mistakes all over in all different times in history. 0 of 0 people found the following review helpful. Only for Completionists By Timothy Park It is okay. Not the best Deadpool story, decent and interesting, but not a must buy. 5 of 5 people found the following review helpful. Hilarious!! By Robert Garcia I hadn't picked up a Deadpool comic in some time so I was absolutely thrilled to read this whacky time-traveling tale. With guest appearances galore, this collection made me laugh my head off, appreciate the variety of scenarios Deadpool thrives in, and reminded me why I need to read more of the Merc With A Mouth! If you're debating about which DP comic to look at next, I strongly recommend this one as he truly traverses plenty of Marvel's vast universe!

Since Deadpool is twice as much trouble as anyone in the Marvel Universe, the only logical people who could possibly rescue him and Bob, Agent of Hydra, from their temporal tantrum are, well, everyone! Guest appearances include Captain America, the Fantastic Four, Doctor Strange and more!
