Gerry Duggan, Brian Posehn : Deadpool: World's Greatest Vol. 2: End of an Error before purchasing it in order to gage whether or not it would be worth my time, and all praised Deadpool: World's Greatest Vol. 2: End of an Error:

1 of 1 people found the following review helpful. Not really a Deadpool comicBy ScottSome good stuff in here but they really should have called this the Mercs for Money. Nearly the whole volume is one shot tales about either origins or private lives of the Mercs for Money. Kind of a bait and switch if you're looking for Deadpool0 of 0 people found the following review helpful. Four StarsBy JanetI enjoyed Wade's character development.3 of 5 people found the

following review helpful. More like "beginning of an error" By Chelsie Jamerson On the cover Popmatters.com claims "We wouldn't have Deadpool any other way" which is to say they don't want Wade Wilson to be the focus of his solo series. Again Wade Wilson is primarily the sidekick in his own title like in the vol 1 "Millionaire with the Mouth" At least in this book the first story (about 10 pages) is how Deadpool books usually are. After those 10 pages the rest of the book puts Wade on the sideline and the whole, "If you like Deadpool, you'll go crazy for yet more Deadpools!" takes effect. Marvel is REALLY shoving the Mercs for Money down people's throats as the bulk of the book is telling the various "origin stories" for the characters either before or slightly after Deadpool recruited them. Masacre's story is mostly in Spanish. In fact 11 pages, give or take, are exclusively in Spanish with no translation...so if you don't know Spanish like me...you can't read them. Its bad enough the Mercs for Money are being forced on the fanbase but to have 10+ pages exclusively in Spanish just reminds why i hate the Mercs for Money. If this was a "spinoff book" that would be fine but this is Deadpool's main series and he's primarily making cameos!-_-As if we didn't have enough Deadpools already this book introduces Deadpool 2099 who is *gasp* a woman. Not like Marvel has been gender swaping heroes like Thor, Spider-Man, Ironman, etc. Now Deadpool gets ANOTHER gender swap. This is the 3rd time. Lady Deadpool, Gwenpool and now Deadpool 2099. If you are considering buying this book to see the misadventures of Wade Wilson well this book offers about 10 pages of that. The bulk of the book is the Mercs for Money being thrown in your face along with another version of Female Deadpool. Unless you are actually interested in the Mercs for Money or you are trying to complete a collection I'd recommend skipping this volume. Otherwise you'll be asking "Can i have more Wade Wilson in my Deadpool comic please?"

INTRODUCING: DEADPOOL 2099! Jump 84 years into the future for an all-new adventure with an all-new Deadpool! Who is this sci-fi Mouthy-Merc-Lady? And what's her connection to Wade Wilson? Plus: Meet "Masacre"- the Deadpool of Mexico! Did you know that Deadpool in Spanish-speaking countries is called "Masacre"?

COLLECTING: DEADPOOL 3.1: TRES PUNTO UNO, 6-7
