Charles Soule, Tim Seeley, James Tynion, Jonathan Marks : Death of Wolverine: The Logan Legacy before purchasing it in order to gage whether or not it would be worth my time, and all praised Death of Wolverine: The Logan Legacy:

6 of 6 people found the following review helpful. Death of Wolverine Continues to Unfold By S. H. Wells Collecting: Death of Wolverine: Logan Legacy #1-7 This book as well as Death of Wolverine: The Weapon X Program are mini-series that spin directly out of the Death of Wolverine event. The Logan Legacy is a good collection that is bookended

by Charles Soule's writing. Each issue in between, however, is scripted by a different writer and illustrated by a different artist. Jonathan Marks' Sabretooth-centered issue is visually arresting and is a highlight of this book. This book has a narrative structure similar to episode 18 of Star Trek the Next Generation Season 3. In the Star Trek episode, Picard is abducted and placed in a cell with three aliens who fundamentally do not like each other, and they have to figure out why they are there. In "The Logan Legacy" the narrative starts with Mystique, Sabretooth, Daken, X-23, and Lady Deathstrike in a cage at the mercy of a mysterious captor. None of these characters are known for impulse control, and they are soon at each other's throats. In order to find their common ground, the characters are forced to recount their reactions to Logan's death. Thus, each issue in the "Logan Legacy" book focuses on a different character. The common thread shows how each of the prisoners copes with news of Wolverine's death and how each deals with the loss of their father/genetic material/nemesis. The common threads weave the beginning of the next episode which can be found in Wolverines Volume 1: Dancing with the Devil. Overall, the combination of Sabretooth, Daken, Lady Deathstrike, Mystique, and X-23 in a cage together is a strong start for the novel. The different artists in the book also create an overall strong and visually interesting collection. Each story generally works well, but some of them are a bit uneven. For instance, the Sabretooth issue strikes the right notes as Sabretooth frustratedly attempts to deal with the loss of Wolverine. This issue has a keen sense of character and psychology. On the other hand, Captain Chinook seemed rather forced, and he came out of nowhere to leave such an impact on X-23. 0 of 0 people found the following review helpful. Wolverine-the greatest X-Men ever-is dead! With this mutant powerhouse now permanently out of the picture, various factions of both good and evil are scrambling to fill the void left by Logan's death! Will Wolverine's Legacy be shaped by heroes who valiantly fought alongside him, or by those villains treacherous enough to have challenged him over the many years of his long life? COLLECTING: DEATH OF WOLVERINE: LOGAN'S LEGACY 1-7
