Charles Soule : Death of Wolverine before purchasing it in order to gauge whether or not it would be worth my time, and all praised Death of Wolverine:

0 of 0 people found the following review helpful. A Team of Weapon X Experiments Fight for Their Lives By S. H. Wells Collecting: Death of Wolverine: Weapon X Program #1-5--Death of Wolverine: Life After Logan #1 This book collects the first mini-series that spins out of the Death of Wolverine event. Wolverine was the apex predator, the best there was at what he did. Between heightened senses, healing factor, and metal laced bones, the shadowy agencies that

built Wolverine perfected weapons technology. Wolverine was not the only experiment, however. The "Paradise" weapons facility was attempting to create another super-weapon on par with Wolverine. The issues collected here detail the desperate attempt of a group of failed "Paradise" experiments to escape from their creators. Each patient has been experimented upon and has gained a superhuman trait in the process. The ragtag team has to work together to avoid capture or death. The team consists of an interesting blend of powers: Skel has powerful strength, but begins to collapse in pain if he doesn't regularly pound somebody. Neuro's brain was enhanced, making him a human supercomputer. Junk's ancient DNA was activated, giving him a range of animalistic powers from gills to horns. Endo's has superspeed. And finally there's Sharp: his power is heightened tactical awareness, but he also seems to have flashes of what he believes are Logan's memories. This team was never intended to survive the "Paradise" facility. With time running out, their only hope is finding other Weapons X products: Sabertooth, Daken, and X-23. The next volume to read, *Death of Wolverine: The Logan Legacy* finds Victor, Daken, Laura Kinney and others in a predicament of their own! The story was good, even if I didn't find this team's cast compelling. Ogun's role in the group was the most interesting reveal of the book, and promises interesting developments. The One Shot "Life After Logan" was my favorite issue collected here. "Life After Logan" shows several X-Men paying tribute to Wolverine. Armor's grief was especially well written. The "Death of Wolverine" mini-series directly sets up the ongoing stories collected in *Wolverines Volume 1: Dancing with the Devil*. 0 of 0 people found the following review helpful. Fantastic read. By Jeffrey S. Watts. This was a very enjoyable read. Obviously in comics no one ever stays dead, and you know Marvel would not just leave Wolverine alone, but this was an excellent written story and beautiful artwork. 1 of 1 people found the following review helpful. This came in the mail yesterday in great condition. First off all. By Barbara. This came in the mail yesterday in great condition. First off all, I love the art and it's my favorite thing about this book, actually. I thought the story was pretty rushed and that they just wanted to kill Logan off without putting much effort into it but made the book to get more money. I liked seeing Viper, Sabretooth Kitty but they weren't around for long. I was kind of expecting more Wolverine being on his own and reflecting on his life - that's why I loved the ending. I would've preferred if this was a bit more epic, I guess. But I'm still giving it 3 stars because the art is amazing and the story itself is decent.

Logan is no stranger to death. He's killed thousands. He's watched teammates, friends and lovers die. Now, stripped of his healing factor, the X-Man and Avenger faces his own date with the reaper. There's a bounty on his head, a price big enough to put a horde of enemies and assassins on his trail. The race is on to find Wolverine, but who put out the contract? Sabretooth? Viper? Or someone even worse? When Logan discovers that his mystery foe wants him alive, he turns on the offensive. As the hunted becomes the hunter once more, he's determined to die the way he lived. The Wolverine will go out fighting. COLLECTING: *Death of Wolverine* 1-4

About the Author Charles Soule is a Brooklyn, New York-based comic book author, musician, and attorney, known for his series 27 published by Image Comics, 'Letter 44' from Oni Press, 'The Death of Wolverine,' 'Superman / Wonder Woman' and other titles. Steven "Steve" McNiven is a Canadian comic book artist. He first gained prominence on CrossGen's Meridian, before moving onto books such as Ultimate Secret, New Avengers and Civil War.
