By CustomerAs for the actual product, I love it! Great item for any Deathstroke fan such as myself!! The mask is relevant to ones worn by 6 year olds on Halloween (flimsy plastic material with Velcro strap) but in the box is an awesome display piece. It's actually pretty large too. I'd say I have a large head and it engulfs mine. But as for ; they could have done better on the shipping. My box's corners were dented and worn to the point they were whitened. Big deal when you're a collector looking for a displays piece. I'm not sure if it was damaged pre shipping get or during but I was pretty let down to see those corners like that and the box slightly bent. The 4 star is because of the package damage. The actual product as a whole would get 5 if mine weren't damaged. Still a fan of but I don't like damaged goods

By ShinjaejunAs a collector of comic book things, I do like this set. However collector wise the mask is kind of cheap and flimsy. Still, if you're only going to display it in the box that is not so big of a deal. Sort of poor packaging on 's part. Like others have said, there is damage to the box I received. Mostly to the corners. I suppose that is a risk one takes when not buying from a comic book store where you can see the packaging before you purchase. The book inside was in good shape. I only opened it to check everything out then it went to the display shelf. There were no scratches or anything on the mask in my box so I am happy with that. It's a nice addition to my collection.

By Maria kerrickThe comic itself is alright. Very forward so the dialogue seems campy. Dig the art, but I'm sure most of you want to know about the mask. I kept seeing that the mask was of poor quality. I didn't understand exactly what that meant. You know those cheap masks that come with kids costumes at party city? The ones that don't take much to crack? That's what this mask is made out of. However, the art on it actually looks really nice and we didn't purchase this to wear it around. We purchased it for a decorative piece in the nerdy office. It fits nicely on a mannequin head (especially a black one), but it also fits nicely on people's heads. A bit longer than a normal face, but still, it's not

bad.If you're buying this for cosplay... don't. If you're buying it for the comic... I don't know what to tell you. I don't know much about deathstroke which is why I bought it.
