Nice variety of characters but finishes too fastBy Parka[[VIDEOID:moGE5RMV0OS0UJ]]It's the sketchbook of Ovi Nedelcu, who does character design, visual development and storytelling. This is a 98-page hardcover filled with mainly cartoon style character sketches. There's a nice variety of interesting characters. I wish there could be more, given that the book is rather thin. You can check out more of his work on his website.(There are more pictures of the book on my blog. Just visit my profile for the link.)

From the creator of the critically acclaimed comic Pigtale comes his new book, Desene: Sketches Scribbles. Explore a host of sketches and designs by designer/illustrator Ovi Nedelcu, in their purest form and impulse. These sketches and scribbles are taken directly from both his analog and digital sketchbooks and collected for the first time ever in this new deluxe hardcover book. Also included are Ovi's notes and thoughts as he takes you through some of the processes and techniques involved in his work.
