Matt Kindt : Divinity II before purchasing it in order to gage whether or not it would be worth my time, and all praised Divinity II:

1 of 1 people found the following review helpful. An exciting series!By Hannah Heath***Comic given to Constant Collectible, a geek website I write for, in exchange for an honest review. All thoughts are my own.***My thoughts on Divinity II #2? Im excited. This comic book has a great concept going on. Its chock full of action, complex characters, great artwork, and brilliant usage of history. Oh, and time travel. Lets not forget about that.First off, Myshka is an

extremely interesting character. Two thumbs up to Matt Kindt for his masterful creation of a great antagonist. The story line is extremely intriguing and I also thought Trevor Hairsine's artwork was great. This issue seemed like it was just a launching pad for what's to come. It did not have as much character development as *Divinity II #1* and relied on both that issue and *Divinity* to explain motivations and plot. You'll need to read *Divinity II #1* first (duh), and it would probably help to read *Divinity*, too, though that isn't 100% necessary for your understanding of the story. That being said, though issue #2 is preparing us for something big and thus felt less like a story and more like a precursor to one, I really don't care. I love what this issue is setting us up for and the ending is perfect. Suffice it to say that I am liking where this series is headed and cannot wait to get my hands on the next issue! If you have yet to read these, jump on in! Full review here: [...] 0 of 0 people found the following review helpful. Spectacular By TheOtherDude91 Probably the best comic I've read all year. Probably the strongest character I've read in a long while. *Divinity VS Dr. Manhattan?* Now, that'd be awesome to see 0 of 0 people found the following review helpful. Five Stars By WhoDoo Matt Kindt is awesome!

The much-anticipated follow-up to the five-time sold-out series that *The Onion/A.V. Club* calls the Best New Superhero of 2015 is here! At the height of the Cold War, the Soviet Union - determined to win the Space Race at any cost - green-lit a dangerously advanced mission. They sent three cosmonauts farther into space than anyone has gone before or since. Handpicked orphans with no connections to Earth, trained as devout Communists, and restricted from having families, they became lost in the stars and encountered something unknown... Something that changed them. Long thought lost and erased from the history books, Abram Adams was the first to return, crash-landing in the Australian Outback. The few that have been able to reach him believe him to be a deity. They say he can bend matter, space, and even time to his will. But, even with seemingly limitless power at his fingertips, he is concerned only with the secret love he hid away from his superiors and the unborn child he never had a chance to meet. Now, Myshka, the female co-pilot of the group, has also returned to Earth...but, unlike Abram she had no secret family. Unlike Abram, she still believes in the Communist ideal. And, unlike Abram, she intends to play a very real role in the return of Soviet glory. Earth is about to meet a new god. And she's a Communist. How long can it be before the nations of Earth bend before *DIVINITY*? The acclaimed creative team of Matt Kindt (*4001 A.D.*) and Trevor Hairsine (*X-Men: Deadly Genesis*) returns to continue the expansive sci-fi saga that shook the world! Collecting *DIVINITY II #1-4*.
