0 of 0 people found the following review helpful. Just OkayBy Adam Graham This book collects Issues 1-4 of Year of

the Tenth Doctor's adventures. Issues 1 and 2 open with the Doctor having lost his memory and everyone in a strange position because of a strange villain. The story leads the team back to Ancient China for Issues 3 and 4 in pursuit of Cindy and a strange red TARDIS. Overall, this book is okay. It has some decent ideas, but it's nothing surprising in here. It feels short (and at 4 issues, it really is a short trade.) but it has some school elements. I particularly liked the Chinese art in the second half of the book. Overall, not bad, but not a must-read either.

It's the start of a brand-new year for the Doctor, Gabby, and Cindy, and things are looking VERY different for the Tenth Doctor TARDIS team! Dangerously different, in fact! Did the Doctor really abandon Gabby back to her life on Earth - and never come back? Has Cindy really been 'replaced'? And why is the Doctor wandering homeless, without his TARDIS, on a mystifying alien world? The truth will dazzle, terrify, and entertain you!
