**Robbie Morrison : Doctor Who: The Tenth Doctor Volume 2 - The Weeping Angels of Mons** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Doctor Who: The Tenth Doctor Volume 2 - The Weeping Angels of Mons:

3 of 3 people found the following review helpful. Great Use of the Weeping Angels By Adam Graham this book collects Issues 6-10 of Titan's Eleventh Doctor Comic series. The first four issues feature the return of the Weeping Angels, this

time going up against the Tenth Doctor and Gabriella in World War I. The artwork in here is simply glorious. After, "Blink," the Weeping Angels got away from their original concept of sending people back in time for far more ordinary means of murder, probably because the original method would mean creating costly locations. But in comic book form they can create the locations with a stroke of the pen. The art is great and there are some beautiful full page and two page spreads. The writing by Morrison is very good and he does a solid job of capturing the feel of the Tenth Doctor particularly in this post-Donna era. That angst about having a companion comes through clearly. True, the end did seem to borrow from, "The Family of Blood," and there was a pointless straw man about religion and a priest whose faith depended on them not being real angels. Still, this was a solid story otherwise. Issue 10 features a return visit to New York for Gabriella in, "Echo," a story involving a sound creature in New York. It a typical romp that would have worked well in Doctor Who magazine as a tell a story the television show couldn't touch. Overall, this is another nice collection for the Tenth Doctor. 1 of 1 people found the following review helpful. Volume 2- Great but not as good as it should be By Misty K. Volume 2 of the Tenth Doctor's Titan Comic adventures is a stellar addition to your collection, but not as good as Volume 1. The story is really cool, I think better than pretty much any Weeping Angel ep of the series. The details are incredible and most characters are well written. That being said The Doctor doesn't feel as Tenth Doctor-y as I would like. He seemed more early Ninth Doctor-ish here. Gabriella is a delightful companion who is better written than many recurring characters on the show in recent years. Yes, the end of the main story will probably remind you of S3's "The Family Of Blood" but that's not a terrible thing. The secondary story here is quite enjoyable as well. Robbie Morrison did a great job with story but the Doctor could have been written better. Now for the artwork. I hate to criticize because no way I could draw that well but the art was strange in regards to the Doctor. He only really looks like the The Doctor on the cover. For some reason the artist was consistently drawing Ten as looking angrily distressed or confused. He's The Doctor, not Batman. They also drew him as being a bit bulky at times. The Tenth Doctor is infamously skinny. Seems like weird choices were made by the art department. There is a really wild picture of The Doctor standing in front of a mass soldier graveyard, reminiscent of the album cover for Master Of Puppets. It's fantastic art but it would be better if they'd actually made him look like the Doctor instead of angry Batman Doctor. The other art is really wicked but it's slightly distracting how little the Doctor looks like himself. To sum it up we have a great story but a Doctor acting like a prior version of himself. And we have great artwork but a Doctor who doesn't look like himself. No offense to those involved here but I hope the powers that be stick with Nick Abadzis and the other artists in the future. Volume 2 gets a B 8/10. 2 of 2 people found the following review helpful. Meh By Josie First off, I have to give the quality of the artwork four stars. It really was excellently drawn, particularly the angels. They didn't really seem to even try to make the Doctor look like himself, though, so they lose a star there. I found the story a tad over-preachy about war and religion. It made sense that there be some anti-war dialog, but I felt they focused on that too much. And the anti-religion stuff seemed out of place and annoying. I also found the Doctor was too grim. Waaaay too grim. He never smiled through the whole thing, and didn't really crack any jokes. I didn't really feel like I was reading a Tenth Doctor story at all. They really missed the mark on his character, big time. So the story gets two stars. I have to say, I was pretty disappointed by the story, and found myself just kind of wanting to get it over with. Artwork: 4 Stars Story: 2 Stars

**THE TENTH DOCTOR IS BACK, IN AN ALL-NEW ONGOING SERIES! NEW COMPANION! NEW FOES! UNFORGETTABLE NEW HORIZONS! ALLONS-Y!** Second volume of the ongoing Doctor Who: The Tenth Doctor comics series.

"Highly recommended." - Unleash The Fanboy "Practically flawless" - Pop Culture Bandit "The Weeping Angels are just as terrifying in the comic as they are in the show." - Fangirl Nation "Flawlessly captures the thrills, settings, and madness of this Time Lord. You're missing out if you let this get by." - Sci-fi Pulse "Daniel Indros rough, yet sharp art brings to life the despair of war and terrifying, monstrous snarl of the Weeping Angels." - The Scoop "Daniel Indro brings the art that will hook you in and scare the pants off ya." - The Examiner A solid read and a great return for the weeping angels" - Comic Bastards Daniel Indros artwork feels reminiscent of Lee Bermejos - Comic Book Therapy It is a win all over; just make sure not to blink. - Newsarama "One very good comic" - Geeks Unleashed Full of excitement" - Sci-Fi Online "Delightful" - My Geeky Geeky Ways "The artwork by Daniel Indro is wonderful." - All That Geek "Plenty of action and plenty of craziness" - FA Comics "This is a fun read, pick it up." - Whatcha Reading "Robbie Morrison turns in another excellent script, with excellent art by Daniel Indro" - TM Stash "Tight storytelling and compelling characters" - The Geek Girl Project "I can't fault the attention to detail" - Needless Essential "Doctor Who fans are well served" - Sounds On Sight It's a fun (though grim) story, and writer Robbie Morrison and artist Daniel Indro do a good job of capturing the manic energy of #10. - Comic Of The Day "Enjoyable and intriguing" - Those Who Geek "Compelling and creepy and powerfully allegorical" - Warped Factor About the Author Robbie Morrison is best known for his work on the UK's legendary sci-fi comic 2000 AD, for which he has written Judge Dredd and created the hugely popular Nikolai Dante.
