Robbie Morrison : Doctor Who: The Twelfth Doctor Volume 1 - Terrorformer before purchasing it in order to gage whether or not it would be worth my time, and all praised Doctor Who: The Twelfth Doctor Volume 1 - Terrorformer:

5 of 5 people found the following review helpful. Could have been betterBy Jesse ConradThis volume features two stories, "Terrorformer" and "The Swords of Kali", written by Robbie Morrison, drawn by Dave Taylor and colored by Hi-Fi.First, on the art of both stories, I find Dave Taylor to be an awkward artist. He's not by far a terrible artist.

However, his art falls awkwardly between cartoony and realism. The facial expressions of the characters look odd and some of the body postures of some characters looked a bit awkward. Hi-Fi's coloring is what redeems the art, providing the atmosphere and settings a very favorable palette, and softens the awkwardness of Taylor's drawing. As for Robbie Morrison's writing, I find "Terrorformer" a bit ludicrous and "The Swords of Kali" a much better story. The ludicrousness of "Terrorformer" is mainly due to Morrison's choice of antagonists - sentient suns on a smaller, human scale. I just find it hard to believe that fire could house such intelligence. How could they land on a planet without accidentally setting something on fire?"The Swords of Kali" was a gripping story. It had some quite nice cliffhangers. I like edgy stories and this was one. I really liked how the story had Hindu flavors to it. And the ending was truly touching. Morrison has managed to create an ending for us to savor. I don't think Morrison captured the Capaldi Doctor very well in his writing. I believe he's better off sticking with the Tennant Doctor as he does that incarnation very well. I couldn't entirely fault him on his writing the Capaldi Doctor though because we only have seen one season with that incarnation. Hopefully, Morrison will be able to capture this incarnation better once the second Capaldi season has been broadcast. Decent volume overall. 0 of 0 people found the following review helpful. Excellent collection of stories By Greg Chang Excellent collection of stories. I really felt like I was immersed in an episode. However, the art was only mediocre. The characters only superficially resembled the actors, but it was only a minor distraction in my reading pleasure. 0 of 0 people found the following review helpful. Great book for a good price! By S. Staley My son absolutely loved this book he got for Christmas! He's trying to collect all of the Doctor Who graphic novels.

DONT MISS THE STUNNING FIRST COLLECTION OF THE TWELFTH DOCTORS ALL-NEW COMICS ADVENTURES! New Doctor! New Beginning! Offering shocks, surprises, and timestream-shaking revelations, dont miss your chance to get on board this amazing ongoing series!
