**Shirow Masamune : Dominion: Conflict, No. 1: No More Noise** before purchasing it in order to gage whether or not it would be worth my time, and all praised Dominion: Conflict, No. 1: No More Noise:

0 of 0 people found the following review helpful. Classic ShirowBy Kindle CustomerAnd I mean that in the best possible way. Lots of mechanical detail, action, and humorous day to day life all in good balance. The character art is dated but that's what you expect when you read the classics. The only reason this doesn't get 5 stars is because I read Appleseed first and liked it much more. Enough so that I bought all available books in hardcopy. I found it more enjoyable than Ghost in the Shell, even. The second Dominion book is skewed much more towards police procedural and day to day life than action. I sure wish there were more Appleseed and Dominion books to be had!1 of 1 people

found the following review helpful. D 2By Mike KeepperThis is actually the second volume of the Dominion Tank Police, but it is a different universe from the first Dominion volume. Sergeant Leona Ozaki is not as air-headed as the first story. She is a real Cop who likes tanks! This volume is more of a Police Procedural story in th action adventure genre with plenty of comedy element as only Shirow Masamune, artist writer can pull off! Great classic that was written about 1994. It holds up well and is an entertaining read!0 of 0 people found the following review helpful. Old School MangaBy Mike KeepperThis old school Classic magnate h at still holds up thanks to the genius and art of Shirow Masmune! Wacky police procedure with tanks grown in for good measure. Shows the pressures real police deal with everyday. Dirty politicians, muck raking journalists, flaky citizens, and so on. Entertaining read!

Welcome to the future of vast bio-constructed cities with crime so severe that the cops drive tanks! For top tank-cop Leona Ozaki (and her trusty tank, Bonaparte), the day-to-day is a tall order already, but when the villainous and sexy (and super-powered androids!) Puma sisters become duly deputized officers of the law and are assigned to "help" Leona catch Urushi-Maru, "The Skyscraper Pirate," things are bound to get out of hand, especially in the midst of a full-on, tank-on-tank streetfight between Leona and a corrupt arms manufacturer bent on getting the city's police tank contract!
