see one of my favorite childhood books come alive. Faithful to the novels, the characters look like how I imagined them, and I will probably end up buying the whole series.0 of 0 people found the following review helpful. Great to see one of my favorite book series in graphic novel form.By Thomas (cadcomputers)It does skip over some plot from the books, but still a great read even if you've never read the original book series.1 of 2 people found the following review helpful. Good, but not great visualsBy John BorenFor the first time we get a glimpse of what the world of Draglance looks like visually. My big fantasy is that one day they make the Chronicles series into a movie series which could be successful considering how well LOTR did. As for this graphic novel, it is a good condensed version of the actual book. It lacks a little bit of the emotion of the book because of this but i still enjoyed it. I didn't really care for how Caramon and a few of the other characters looked since i had a different vision of them, but part of this is due to the artwork lacking consistency at points. At any rate, i look forward to the completion of Dragons of Winter Night!
