CM Punk, Cullen Bunn : Drax Vol. 1: The Galaxy's Best Detective before purchasing it in order to gauge whether or not it would be worth my time, and all praised Drax Vol. 1: The Galaxy's Best Detective:

0 of 0 people found the following review helpful. Amazing art, Love Hepburn's stylized look By berserktravis Amazing art, Love Hepburn's stylized look. Works perfect for the story, and it's even funny (hard to do in comics) 3 of 3 people found the following review helpful. Noir in space By Boris Whenever you think the Marvel Universe will freeze in dull boredom a writer comes along, takes a second or third grade character and turns them into a gem. To mind come

David's Genis and Madrox, Slott's She-Hulk and Hopeless Spider-Woman. Here its two writers: CM Punk, ex-wrestler and comics newcomer, and old battle horse Cullen Bunn, joined by penciler Scott Hepburn, whose half cartoony half gritty style just matches this book's tone, inker Scott Hanna, and colorist Matt Milla. Drax the Destroyer, tragic galactic figure obsessed by killing his nemesis Thanos as a space detective? This sounds odd, but the components all fit together perfectly here. You have the good-bad girl, bartender Ora, the drinking buddy, who is a former villain, the ghost town and a lot of old acquaintances from Marvel continuity. I will not spoil all of them here. This is a rare mixture of odd humor (I have the Power Cosmic, why do I have to take a piss?) and a thrilling adventure story with brilliant dialogues. This book collects #1-5 of the All-New Marvel Drax series. I will be there for volume 2. So, now Marvel, please don't cancel this book. Recommended a lot!!! 0 of 1 people found the following review helpful. Punk's comic debut By Drown Hollum I expected better, just from the buzz surrounding this book. Nobody expects a pro-wrestler to be a brilliant comic book writer, but Cullen Bunn can oftentimes really pull it out with some brilliant scripting, and I hoped that Punk and Bunn together might put together something fun from a unique perspective. I had fun reading Drax, I wasn't bored, and I tore through it pretty quick. Hepburn's art is pretty, with rad designs, and colorful expressions, but the script is ridiculously minimal. The dialogue had a joke or two throughout that made me laugh, but otherwise this book leans on a simple, uncomplicated story about Fin Fang Foom operating some sort of criminal underground on some dinky planet out there which Drax gets stranded on. It's all an inconsequential aside for Drax that is by no means a must read for anybody. Punk doesn't offer any interesting perspective or spin, settling for a safe, action-heavy, goofy book. Drax is just barely strung together well enough to appear professional, and not a fan work. I don't know what to expect with Punk leaving the book, but I'll keep it on my radar in case of a turn-around. I didn't hate my time with this book though, and it's on the cheaper end of Marvel's ridiculous pricing.

You know him as the heavily tattooed muscle for everybody's favorite spacefaring super team, but what does Drax do when he's not Guarding the Galaxy? Pursue his own bloodthirsty quest to achieve his destiny and slay Thanos, of course! Determined to find and kill the Titan once and for all, Drax is ready to take on the universe, one heavy hitter at a time! When Drax the Destroyer and Terrax the Tamer walk into a space cantina, it's no joke. Then there's the Temple of Foom! Fin Fang Foom, that is. You know Drax's motto, though: the bigger they are, the harder they die screaming. It's Drax the Destroyer, rampaging through space on a starship named the Space Sucker. You just know, whatever happens, this one is gonna be epic! COLLECTING: DRAX VOL. 1: THE GALAXY'S BEST DETECTIVE TPB
