very good graphic novel that tries and succeeds to a very large extent. I like that they show the characters private lives as well as when they are super heroes but I wish the storyline could have been more complex. If you love graphic novels buy this. 3 of 3 people found the following review helpful. Good Riddance, Captain Dynamo! By Hermgerm Thank god Captain Dynamo got himself whacked, otherwise we the readers would never have encountered Dynamo 5, five of his illegitimate children brought together after the unfaithful Captain's death by his widow Maddie Warner. Read this book and meet SCRAP: Beautiful and alluring graduate from NYU Film school who possesses her dad's super-strength! SLINGSHOT: Equally sexy and sophisticated heroine with the power of hypersonic flight! SCATTERBRAIN: Would-be pro-footballer and teenager with the disturbing ability to read minds! MYRIAD: Smooth talking womanizer who bounced around foster homes as a kid, now possessing daddy's shape-changing ability! VISIONARY: High School nerd desperately seeking to lose his virginity, with incredible vision powers to boot! No sooner have these five half-siblings met when they are thrown into battle against their father's old enemies now seeking to take advantage of the power-vacuum in Tower City. WHIPTAIL! THE VEIL! SYNERGY CRYSTALIS! Will they survive these monstrous foes? Buy this book, which collects Dynamo 5 issues 1 -7, and find out. Highly recommended for those who liked Robert Kirkman's Invincible, and for those readers who are tired of having their favorite superheroes recycled. 0 of 0 people found the following review helpful. Superb- As Good as a Marvel or DC Title By W. Hill This series has a great concept, and I would recommend it to any lover of comic books. It has plenty of action, character development, and shows that even superheroes have flaws. Everyone can relate to at least one member of the team- whether you're the overachiever destined to fly, the brainy kid with a vision, a sly shapeshifter, the star player with still untapped potential, or the frustrated dreamer with hidden strength, you'll find something for you in this book. And then there's the complex relationship between Maddie Warner and the 5- they represent her husband's infidelity, as well as his legacy. The Dynamo 5 will keep you on the edge of your seat, and leave you wanting more when it's over, so pick up your copy of this masterpiece and escape into the world of Tower City and join Slingshot, Visionary, Myriad, Scatterbrain, and Scrap on a captivating adventure! On to Volume 2!

He was the world's greatest hero, but Captain Dynamo was not a faithful husband. Now he's dead and his family is trying to piece their lives together. As his enemies descend on his unprotected city. Captain Dynamo's widow rounds up his five illegitimate children, each of whom have inherited one of their father's super-powers. Can these total strangers come to terms with their powers, their father's legacy and each other as total chaos erupts?
