MonteroI read these magazines back when the first came out in the sixties. It was easier for me to buy this volume and enjoy the stories and terrific art once again rather than go rummaging in the attic to find the originals! I would highly recommend this first volume. the stories and artwork were ahead of most of the comics being produced at that time. They hold up now always. Do yourself a favor and also get the first volume of the Creepy archives.0 of 0 people found the following review helpful.
